I am, once again, angry to hear that our best, most professional, and most responsive State Energy Registry, CHEERS, is being strung over a barrel by the Powers That Be. You are here to serve us, the people of the State of California. Your job is NOT to squeeze out the only competition there is so that your friends at CalCerts can have a monopoly and resume charging their ridiculous fees and making us use their ridiculously lousy website. I smell collusion, and it stinks like a freshly killed skunk. You are not above the law. Please don't behave as if you were.
