Subject: STATUS REPORT #2 FOR THE SAN JOSE CITY DATA CENTER SMALL POWER PLANT EXEMPTION (19-SPPE-04)

In its May 12, 2020 order (*Committee Scheduling Order*), the SPPE Committee ordered all parties to file and serve a Status Report on the 15th of each month, beginning with May 15, 2020.

Since the April 28, 2020 Committee Conference, staff has filed Data Requests Set 5 (TN# 232916) regarding the applicants decision to switch to 115 kV transmission lines, the need for which staff discussed during the Committee Conference. Staff has also been working with the applicant to clarify some aspects of the project description related to the extent of project site water use (Record of Conversation, TN# 232985) and excavation.

We look forward to receiving these clarifications from the applicant as well as the information associated with transmission line reconductoring (discussed in the response to Data Requests Set 3) and the applicant's responses to Data Requests Sets 4 and 5.
