## **AS A NEIGHBOR I OPPOSE THIS PROJECT**

I live within a mile of this project and I am concerned of the environmental impact that it will have in my community. Not only will large Oak trees be removed, but the power plant will generate noise and pollution when these 36 generators are turned on. Not to mention the constant 'hum' that is associated to a data center even when the generators are not running. Finally, this will block the views we have from the hills, it will become visually unpleasant. Please do not allow this to happen, this location is in too close proximity to a residential area. Thank you.
