RPS-16-03 Clarification of the meaning of 'monetization'

RPS-16-03 Clarification of the meaning of "monetization"

The word "monetization" does not appear in the proposed regulations, perhaps the staff intended to clarify "monetized".

Perhaps the meaning of "monetized" should be removed, it appears to match common definitions. This removal should be done where common or legal definitions exist, as is done for the word "product", that appears many times in the regulations without a definition.

Only the exclusion of tariff or subscription should remain and only if payment happens before any renewable energy credits associated with electricity credited to a participating customer are retired.

3204(b)(9)(B)(3)(i). For purposes of this section 3204 (b)(9), "monetized" does not include the revenue earned through the tariff or subscription for the voluntary green pricing or shared renewable generation program where payment is received before any renewable energy credits associated with electricity credited to a participating customer are retired.
