No wind

When I watch the sunset from our coast line it is beautiful. The sunsets into the ocean with nothing but sky and ocean in our view. I cant imagine Big wind mills out there during sunset or any other time. Vistor come to see the open space.What about the condors and other birds what about the ocean and what will be disturb building these? Next will be oil rigs who want to look at any of that ?not me and not the vistor that bring in all the money. I cant imagine sitting at Nepenthe and looking at that or taking your photo with the coast in the back round and having a BIG WIND MLL IN THE BACK ROUND.JUST A HORRIBLE IDEA!!!!!!
