Additional submitted attachment is included below.

Enhance the attractiveness of your business or multifamily property

Launching October 27, the San Diego County Incentive Project will offer substantial incentives to help offset the cost of installing new EV chargers on commercial, multifamily and local government-owned properties in the region. Properties serving disadvantaged and low-income communities are eligible for additional savings.

Join panelists from the Center for Sustainable Energy, California Energy Commission, San Diego Association of Governments (SANDAG) and San Diego County Air Pollution Control District (SDAPCD) for our upcoming webinar. We'll provide the final requirements of the project, including funding, rebate amounts, eligibility and more.

San Diego County Incentive Project Requirements Webinar

Thursday, August 27

10 a.m. - 12 p.m. PST
