**IN THE MATTER OF:****2022 Energy Code Pre-Rulemaking****Docket No. 19-BSTD-03****WEBINAR RE: Nonresidential Grid  
Integration and the Consumer Energy  
Alliance Proposal for Controlled Receptacles****NOTICE OF STAFF WORKSHOP**

California Energy Commission (CEC) staff will conduct a series of workshops to present and discuss proposed changes to the regulations for the 2022 California Energy Code (Energy Code).

**September 9, 2020  
9:00 a.m.**

This workshop will be conducted remotely  
Remote access is available by computer or phone via Zoom  
(instructions below)

**Agenda**

This webinar will discuss proposed updates to nonresidential grid integration and the Consumer Energy Alliance proposal for the sections of the 2022 Energy Code related to controlled receptacles and include presentations by staff and opportunities for public comment.

**Background**

California's Building Standards Code are updated on a regular three-year cycle. Part 6 of that code, the Energy Code, is overseen by the CEC. Staff is evaluating proposed amendments for possible inclusion in the 2022 Energy Code update.

For context, the 2019 update to the Energy Code includes new requirements for installation of solar photovoltaic systems in newly constructed low-rise residential buildings, updates to air filtration standards applicable to all buildings, and new provisions specific to healthcare facilities. The 2022 Energy Code will improve upon the 2019 Energy Code by further revising and updating energy efficiency standards for newly constructed buildings, and additions and alterations to existing buildings.

The goal of these workshops is to solicit feedback from members of the public before the start of the formal rulemaking process. The next steps following these workshops will be the drafting of Express Terms of the 2022 Energy Code, followed by a formal adoption proceeding and public comment period beginning in early 2021. After

concluding the public process, the 2022 Energy Code will be published sometime in the first half of 2022, adopted by the CEC and the California Building Standards Commission, and become effective on January 1, 2023. Based on this schedule, the standards will apply to building permit applications submitted on or after January 1, 2023.

### **Oral Comments**

Oral comments will be accepted during the workshops. You may also send concise comments to be relayed by the Public Advisor on your behalf by sending them to [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov) by 5:00 p.m. the day before the workshop. To ensure that all participants have a chance to speak, comments may be limited to five minutes per speaker and one speaker per organization. All comments will become part of the public record for this proceeding.

### **Written Comments**

Written comments may be submitted at any time prior to the workshop, and by **5:00 p.m. on September 24, 2020**, following the workshop.

Written and oral comments, attachments, and associated contact information, such as address, telephone number, and email address, become part of the viewable public record. This information may also become available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the CEC e-commenting system to file a comment to [docket number 19-BSTD-03](#) found at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=19-BSTD-03>.

At the "Add Comment" page, enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached in a downloadable, searchable Microsoft® Word (.doc, .docx), Microsoft® Excel, or Adobe® Acrobat® (.pdf) file. Maximum file size is 10 MB.

Written comments may also be submitted by email. Include docket number 19-BSTD-03 and "Nonresidential grid integration and the CEA proposal for controlled receptacles" in the subject line and send to [docket@energy.ca.gov](mailto:docket@energy.ca.gov).

If preferred, a paper copy may be submitted to:

California Energy Commission  
Docket Unit, MS-4  
Docket No. 19-BSTD-03  
1516 Ninth Street  
Sacramento, CA 95814-5512

All written comments shall comply with the requirements of the 20 California Code of Regulations §1208.1.

## **Public Advisor and Other Commission Contacts**

The CEC's Public Advisor's Office provides the public assistance in participating in CEC proceedings. For information on how to participate in this proceeding, or to request language services or other reasonable accommodations, please contact the public advisor, Noemí O. Gallardo, at [publicadvisor@energy.ca.gov](mailto:publicadvisor@energy.ca.gov), or by phone at (916) 654-4489, toll free at (800) 822-6228, or by fax at (916) 654-4493. Requests for language services and reasonable accommodations should be made at least five days in advance. The CEC will work diligently to accommodate late requests.

Media inquiries should be directed to [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov) or (916) 654-4989.

Questions on the subject matter of this meeting should be directed to Payam Bozorgchami at [payam.bozorgchami@energy.ca.gov](mailto:payam.bozorgchami@energy.ca.gov) or (916) 654-4618.

## **Remote Attendance**

Zoom™ is the CEC's online meeting service. When attending remotely, presentations will appear on your device screen and audio may be heard via the device or telephone. Please be aware that the Zoom meeting may be recorded. Zoom technical support is available at the meeting link below through a chat option in the lower right corner of the screen.

**Join Via Computer:** Follow the link below and the instructions on your screen to join the Zoom Meeting.
