Re Item 5 Local Ordinance Applications

Additional submitted attachment is included below.

Hello, and thank you for your consideration. I support adoption of these reach codes. I also urge the CEC to build off local leadership and take electrification further by setting an all-electric baseline for new construction in the 2022 building code. This is crucial to California meeting emissions goals, as well as supporting frontline communities being most effected by climate change. Acterra is fighting to serve communities across the Bay Area-this new construction code would have great impacts for millions of people.

Replacing all residential gas appliances with clean electric alternatives would cut air pollution enough to save 350 lives and \$3.5 billion in health costs every year.

Thank you,

Lauren Weston
Executive Director
Acterra
