**Alelia Parenteau re Item 5 Reach Codes**

*Additional submitted attachment is included below.*

Good morning,

I would like to provide public comment in support of item number 5 on today's agenda as well as to urge the Commission to support a statewide all-electric baseline for the 2022 building code.

I support the adoption of the reach codes being considered today and feel that the City of Santa Barbara would benefit greatly from having a statewide mandate to pursue all-electric buildings in future developments. The Mayor of Santa Barbara recently submitted a letter to your commission urging the same.

The City is aiming to dramatically reduce its greenhouse gas emissions across all sectors and having statewide coordination on electrification of buildings would provide invaluable support in achieving our goals.

Thank you for your consideration.

Alelia Parenteau, Energy and Climate Manager, City of Santa Barbara
