Hello Energy Commission:

I want to reach 100 percent clean energy by 2030. I would like to see the State:

- Move up the deadline for SB 100's goal of 100 percent clean electricity for our state to 2030 from 2045
- Require that all passenger vehicles sold in California be electric by 2030
- Accelerate building electrification: Ban new natural gas connections and begin a statewide retrofit program by 2030

Thanks for your attention,

Bruce England
