Re: City of San Mateo Building Energy Efficiency Standards

Dear Mr. Bohan,

Per the request of Commission Staff, the City of San Mateo would like to express to you our firm commitment to enforce the 2019 Title 24, Part 6 Building Energy Efficiency Standards of the California Building Code as part of the implementation of our Green Building Requirements. As the Building Official, I will work with my staff to provide training on enforcement of the energy standards and the new requirements for developers to comply with the Green Building Standards.

On September 21, 2020, City staff presented the reach code ordinance to City Council. The City Council approved the ordinance at the second reading on October 5, 2020. Additionally, the Council found that, under the California Environmental Quality Act pursuant to Section 15061(b)(3) and 15308 of the CEQA Guidelines, there is no possibility that the implementation of the ordinance will have a significant negative impact on the environment and is thus exempt from the requirements of CEQA.

The City of San Mateo's Energy Efficiency Standards will ensure that residential and non-residential buildings in the City will consume no more energy than permitted by Title 24, Part 6.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Titsworth".

Mike Titsworth
Building Official
