Peninsula-Silicon Valley Incentive Project Prelaunch Webinar

Wednesday, December 2

1-3 p.m. PST

Commercial, multifamily and local government-owned properties in Santa Clara and San Mateo counties can apply for new incentives for electric vehicle chargers starting on December 16. The Peninsula-Silicon Valley Incentive Project will offer up to \$6,000 per Level 2 connector and up to \$80,000 per DC fast charger. Properties serving disadvantaged and low-income communities are eligible for additional savings.

Join panelists from the Center for Sustainable Energy, California Energy Commission and regional partner organizations for the upcoming webinar. We'll cover details about the incentive project, rebate eligibility and provide a walk-through of the application process. Following the presentation, panelists will host a Q&A session.
