Distinguished Commission Members:

I represent the dozens of citizens who wrote to Los Altos City Council in favor of Reach Codes and the overwhelming majority of respondents to a post-education survey on Reach Codes who support them.

We favor stricter building measures to reduce greenhouse gasses and improve the overall health and safety of our community.

We ask that you approve the Los Altos Reach Codes as presented to you as well as those of our sister cities Campbell, Millbrae and Sunnyvale that we know are also up for your review at the same time. Looking ahead to your next Title 24 revision, we ask for a stronger building electrification stance that leverages off of these city successes and creates a more strict uniform code to make a broader impact and simplify things for our builders, architects and realtors who work in multiple cities.

Thank you very much for your continued efforts on all of our behalf.

Connie Miller
