AB 841 allocations

I would like to advocate for all students. Everyone deserves to have upgraded classroom ventilation - not just the under served communities. Every time the state provides grant funding it is based on how many under served families are attending. These districts receive additional Title 1 funding and qualify for every grant opportunity already. The rest of the school districts do not get any funding opportunities and the upgrades are left up to the parents to fund. I can tell you the parents are sick of us asking for more money!

This method is not as equitable as it appears. LAUSD gets the bulk of all CA State funding while the rest of us are left behind.

Prop 39 was an equitable program providing energy savings for every district.

Please reconsider your stance and allow all of us to provide clean fresh air to our students.
