IV. Exhibits

In addition to this written testimony, we will be sponsoring the exhibits listed on C1's Proposed Additional Exhibit List which will be docketed within 5 days of timely filed reply testimony.

V. Opinion and Conclusions

We have reviewed Staff's revisions to the Initial Study/Mitigated Negative Declaration (Revised IS/MND) docketed on February 26, 2021 (TN 236919) and agree with the changes proposed therein. We also agree with the Staff findings and conclusions that the modification to Tier 4 generators does not change any of the findings, conclusions, Proposed Design Measures, or mitigation measures originally approved in the Proposed Decision.

In addition we have reviewed Staff's February 18, 2021 Status Report (TN 236833) in which Staff provides responses to Intervenor Sarvey's contentions contained in his January 18, 2021 Status Report (TN 236344) and we agree with each and every response.

We believe that there are no credible disputes that require evidentiary hearings and we urge the Committee to revise the Proposed Decision to include Staff's Revised IS/MND and proceed to considering the Proposed Decision at the earliest Commission Business Meeting (March 17, 2021) or a special business meeting as soon as feasible.
