Subject: STATUS REPORT #7 FOR THE GREAT OAKS SOUTH BACKUP GENERATING FACILITY SMALL POWER PLANT EXEMPTION (20-SPPE-01)

In the *Committee Conference and Related Orders* filed on September 23, 2020, the Committee ordered "the parties to file a status report no later than the 10th of each month, beginning on September 10, 2020."

Staff continues to wait for the updated project description that includes Tier 4 compliant backup generators and description of the associated impacts, that according to the applicant's Status Report #3, will be docketed by March 10, 2021).

Staff continues to make progress on the EIR in those areas unaffected by the project's conversion to Tier 4. Except for the complete traffic analysis (missing information was noted in staff's Status Report #6) and the Tier 4 project revisions discussed above, there are no other outstanding issues or information that could affect project schedule. Staff currently remains on track to publish the draft EIR in accordance with the Committee's current scheduling order.
