Good Afternoon,

Thank you for providing the CALeVIP 2021 Implementation Workshop on March 11, 2021. I just wanted to confirm, it is my understanding from this workshop that:

1. CALeVIP funding to install Level 2 Chargers in Southern California (Orange County) should be made available between January – March, 2022, on a first-come, first-served basis
2. This funding will be limited to a rebate of up to \$3500 per connector/charging port OR up to 75% of project cost, whichever is less
3. The total amount of rebates and/or funding will be limited to up to 10 connectors/charging ports per applicant
4. At least 25% of electricians working on the project must provide proof of EVITP Certification, this training is \$275 per person, and registration is due by 3/25/2021 for the 4/12/2021 training

If you could please confirm or provide any corrections to the above at your earliest convenience, that would be greatly appreciated.

Thank you,

Elissa Thomas
