Proposed R&D project in the Bottle Rock Power Steam field

This concern information found on the Altarock website.
altarockenergy.com/projects/thermoelectric-generators-in-a-geothermal-field/
There documents states "This project is supported by a generous grant from the California Energy Commissions Electric Program Investment Charge (EPIC) program"?
Me and my neighbors on High Valley Rd adjacent to the Bottle Rock power Plant would like more information on this proposed R&D project.
