Subject: Re.Docket #19-BSTD-03
Date: Sunday, April 11, 2021 3:08:01 PM

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I urge you to adopt an all-electric code for new construction beginning in the 2022 code cycle. An incremental approach is completely inadequate to address the public health and climate crises. We need you to act swiftly to protect our health, safety, and climate and promote equity by ensuring that new buildings do not perpetuate the use of fossil gas infrastructure.

Bill McKibben wisely notes that, when it comes to the climate crisis, “Winning slowly is the same as losing.” Let's make these changes now so we can create a livable future.

Yours sincerely,

Nancy Hedley

Menlo Park, California, 94025, United States
