Docket No. 21-BSTD-01

NOTICE OF REMOTE-ACCESS  
WORKSHOP

RE: 2022 Energy Code

**CORRECTION: Zoom link updated; No other changes made**

**Notice of Lead Commissioner Hearings**

**2022 Energy Code  
May 24, 27, and 28, 2021  
9:00 a.m.**

**Remote Access Only**

The California Energy Commission (CEC) will host three remote-access hearings led by the CEC's lead commissioner for energy efficiency, Commissioner J. Andrew McAllister. The purpose of these hearings is to receive input on proposed revisions to California Code of Regulations (CCR), Title 24, Parts 6 and 1. Other commissioners may attend and participate in this hearing. A quorum of commissioners may participate, but no votes will be taken.

The workshop will be held remotely, consistent with Executive Orders N-25-20 and N-29-20 and the recommendations from the California Department of Public Health to encourage physical distancing to slow the spread of COVID-19. The public can participate in the workshop consistent with the direction in these executive orders. Instructions for remote participation via Zoom are below.

**Agenda**

Prior to the hearing, a detailed meeting schedule/agenda will be posted to [Docket 21-BSTD-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-BSTD-01) at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-BSTD-01>.

The proposed language and rulemaking documents have been posted on the CEC's website on the [2022 Building Energy Efficiency Standards webpage](https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2022-building-energy-efficiency) <https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/2022-building-energy-efficiency>.

Any interested person, or their authorized representative, may submit written comments to the CEC for consideration from May 7 through June 21, 2021. The CEC appreciates receiving written comments at the earliest possible date.

## **Background**

The CEC proposes to adopt changes to the California Energy Code contained in the California Code of Regulations (CCR), Title 24, Part 6 (also known as the Energy Code) and associated administrative regulations in Chapter 10 of Part 1, after conducting a rulemaking proceeding focused on considering all public recommendations, comments, and objections regarding this proposed action.

The CEC began the formal rulemaking of the 2022 Energy Code on May 7, 2021, with the publication of the Notice of Proposed Action (NOPA) by the Office of Administrative Law in the California Regulatory Notice Registry. Prior to this publication, the CEC spent the prior two years in pre-rulemaking development of the proposed changes. The Energy Code recommendations are required to be feasible and cost-effective over the life of the measure and are implemented as performance standards with optional prescriptive requirements.

## **Remote Attendance**
