Subject: STATUS REPORT #10 FOR THE GREAT OAKS SOUTH BACKUP GENERATING FACILITY SMALL POWER PLANT EXEMPTION (20-SPPE-01)

In the *Committee Conference and Related Orders* filed on September 23, 2020, the Committee ordered "the parties to file a status report no later than the 10th of each month, beginning on September 10, 2020."

Staff published the Draft Environmental Impact Report (EIR) on May 21, 2021, submitting it to the State Clearinghouse and the project's docket. Also, a Notice of Availability of the Draft EIR (notice) was submitted to the project's docket and sent out to the project's mailing list, which includes responsible and trustee agencies, state agencies, owners and occupants of the properties contiguous with the project site, property owners within 1,000 feet of the project site and 500 feet of the project linears, and environmental and community organizations. The notice was also translated into Spanish and Vietnamese and sent with the English version to the residents within 1,000 feet of the project and 500 feet of the project's linears. The 45-day public comment period on the environmental document began on May 21, 2021 and will end on July 6, 2021. To date, no comments have been received on the Draft EIR.
