## **Do Not Restart the Power Plant**

Dear Commission officials,

I am writing on behalf of my family and I to strongly oppose the restart of Calpine's Russell City Energy Center. Most concerning is that the application to restart the plant received provisional CEC staff-level approval on June 18. We, like our city government officials, demand further investigations be conducted to protect our family and Hayward residents from potential material and environmental hazards. These investigations should be performed before reopening happens. Please reconsider your position and oppose the restart.

Thank you,

David Herrera
