2021 Integrated Energy Policy Report (IEPR): Request for Extension of Time to File
Certain Electricity Demand Forecasts

Dear John A. Pacheco:

This letter is in response to your June 28, 2021, request to extend the filing deadline for San Diego Gas & Electric (SDG&E) to submit Electricity Demand Forecast forms required by the California Energy Commission (CEC) in support of the *2021 Integrated Energy Policy Report (2021 IEPR)*. The CEC adopted detailed instructions describing the scope and timing of required data submissions at a business meeting on May 12, 2021.

SDG&E seeks an extension from June 30, 2021 to July 21, 2021 to submit all components of Electricity Demand Forecast forms. The extension would allow SDG&E to implement forecast model enhancements and perform more detailed analyses for the 2021 IEPR.

I appreciate that SDG&E wants to submit data of the highest quality and I find that good cause exists for the extensions. In accordance with Title 20, California Code of Regulations, section 1342(c), I grant the request for extending the deadlines to submit Electricity Demand Forecast forms 1.1a through 4 and the Electricity Demand forms 8.1a, and 8.1b.

Sincerely,

A handwritten signature in black ink, appearing to read "Drew Bohan".

Drew Bohan
