July 21, 2021

Docket Number: 20-TRAN-04

Project Title: Electric Vehicle Infrastructure Project Funding

Title: Draft Concepts EV Charging for Multi-unit Dwelling Residents

EVSE LLC is a manufacturer and active participant in the US smart charging marketplace offering innovative, retractable cable, level 2 charging stations. We recommend that the Energy Star specification for this solicitation be stated as “recommended but not mandatory”. The MUD customer base is an important client impacting the growth of EVSE infrastructure. Advanced and novel approaches to expanding the growth of this segment should not be restricted by the Energy Star requirement at this early stage of emphasis.

Thank you for your consideration.

Dean Spacht
