

DOCKETED

Docket Number:	89-AFC-01C
Project Title:	Compliance - LUZ SEGS IX and X Projects Application for Certification
TN #:	239181
Document Title:	Response to Data Request
Description:	Response to Data Request -DESERT TORTIOUSE FENCING MAINTAINENCE AT SEGS X
Filer:	susan fleming
Organization:	California Energy Commission
Submitter Role:	Commission Staff
Submission Date:	8/4/2021 2:27:48 PM
Docketed Date:	8/4/2021

The following is the response to the data request, received from the California Energy Commission (CEC) in an email dated November 18, 2020 for the Solar Energy Generating Systems (SEGS) IX and X Petition to Amend the CEC Certification for removal of SEGS X from the Project.

Data Request-1: *Please request the project owner provide a current map, on an aerial background with similar scale to the map provided in the petition, that clearly depicts the site perimeter fencing and desert tortoise fencing for SEGS VIII as well as SEGS IX and X. Please indicate which fencing is regularly maintained and surveyed as part of monitoring and reported in the Biological Resources Mitigation Implementation Plan (BRMIP) for SEGS VIII and IX. Please indicate which fencing was installed as part of SEGS X and may not be regularly maintained or monitored.*

RESPONSE

The desert tortoise/security fence was surveyed in December 2020 and the location and alignment of the fence is shown in Exhibit A Desert Tortoise Alignment map.

SEGS VIII & IX fence alignment is shown in green and the alignment for SEGS X is in yellow. As an active CSP plant, the SEGS VIII & IX fencing is regularly inspected and maintained as part of BRMIP. The SEGS X fencing, which totals approximately 26,000 linear feet, was installed at the start of construction of SEGS X in the late 1980s. While never an active plant, the SEGS X fencing has held up very well and is periodically inspected. In the summer of 2020, some minor repairs were made to the security fence and the desert tortoise mesh to maintain its effectiveness. There are no holes or gaps in the fencing around SEGS X nor around SEGS VIII & IX.

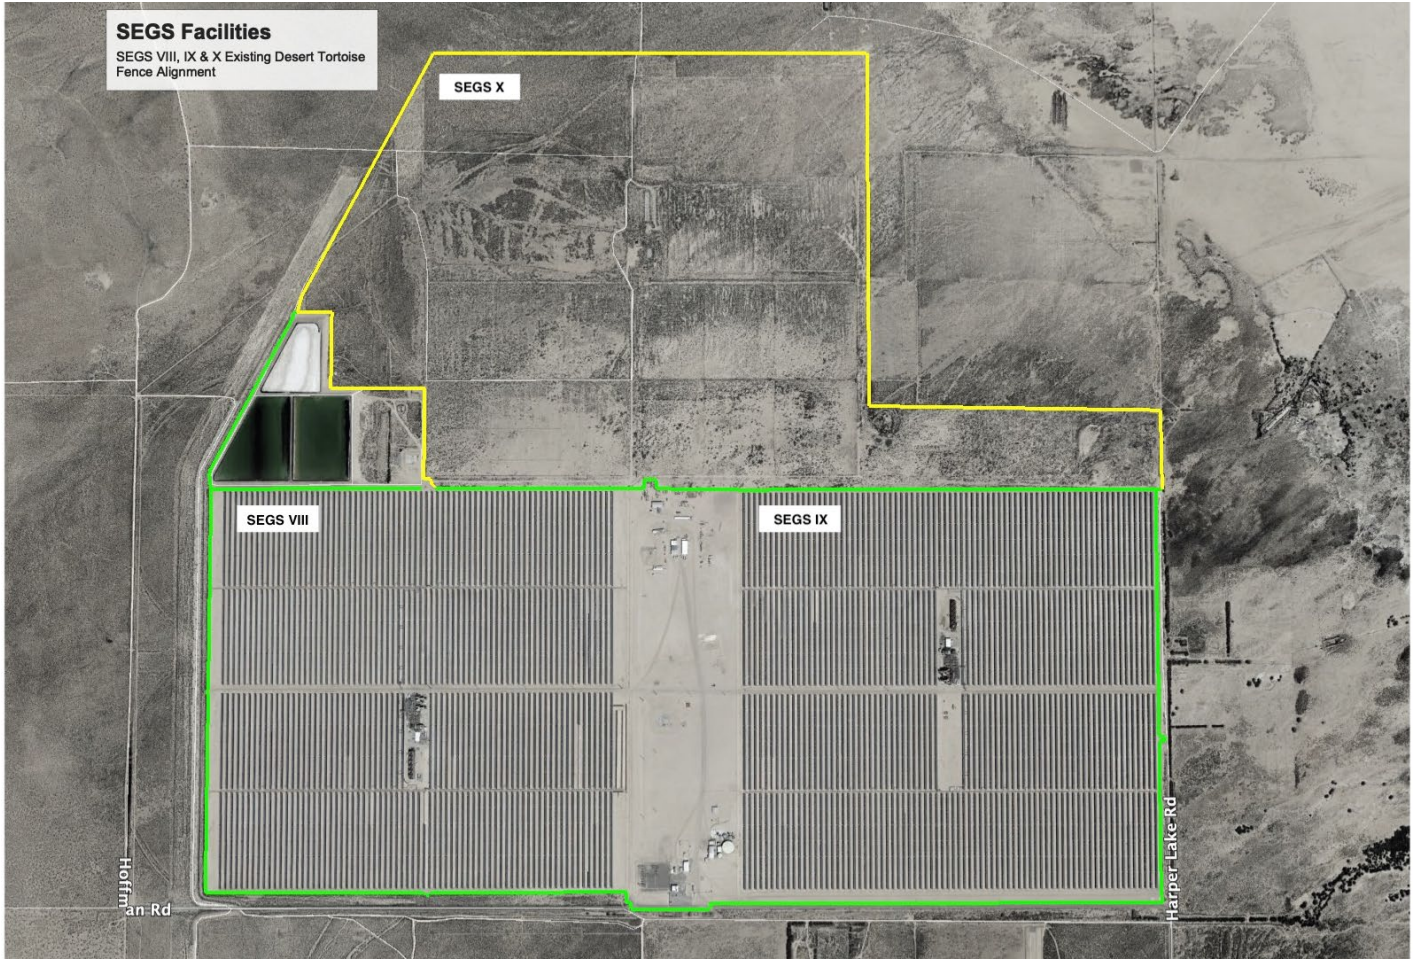

Exhibit A – SEGS VIII, IX, X Desert Tortoise Fence Alignment
