***IN THE MATTER OF THE  
EL SEGUNDO ENERGY CENTER  
AMENDMENT***

**Docket No. 00-AFC-14C**

## **COMMITTEE ORDER FOR STATUS REPORTS, INCLUDING SCHEDULE RECOMMENDATIONS**

### **Background**

On April 23, 2013, El Segundo Energy Center, LLC (ESEC) submitted a Petition to Amend the California Energy Commission's February 2, 2005 Final Decision approving the El Segundo Energy Center. The ESEC recently completed construction and is operating. It is located within the footprint of the existing El Segundo Generating Station (ESGS) first established in the 1950s, inside the southernmost boundary of the City of El Segundo on the coast of the Pacific Ocean, between Dockweiler State Beach and the City of Manhattan Beach, in Los Angeles County.

The Committee held a public Site Visit, Environmental Scoping Meeting, and Informational Hearing in El Segundo on August 13, 2013, to discuss the review process and to identify issues that could affect the schedule. A Committee Schedule was filed on August 28, 2013. That schedule called for periodic status reports through February 2014.

Commission staff filed its Preliminary Staff Analysis on March 25, 2014. A public workshop to discuss the PSA is scheduled on April 22.

It is appropriate to update the Committee Schedule and resume periodic status reports. All parties shall file status reports on April 25, 2014, and every four weeks thereafter until the Prehearing Conference is held. Those status reports shall inform the Committee whether or not case development is progressing satisfactorily, and bring potential schedule delays and other relevant matters to the Committee's attention. The status reports filed on April 25 shall also propose a schedule for the remainder of the proceeding.

The reports shall be uploaded to the Energy Commission's electronic filing system **no later than 3:00 p.m.** on the due date. After review of the April 25 status reports and proposed schedules, the Committee will issue a Revised Committee Schedule.

## **Public Adviser and Public Participation**

The Energy Commission invites members of the public and other interested parties to participate either on an informal basis or by intervening in the proceeding. Both types of participation allow written and oral comments. At the informal participation level, written and oral public comments are considered by the Commissioners and are part of the record, but are not part of the formal evidentiary record. Intervenors have the right to introduce evidence into the evidentiary record and cross-examine the other parties' witnesses.

The Energy Commission's Public Adviser's Office is available to provide the public with an understanding of a proceeding and to make recommendations for meaningful participation. For assistance, contact the Public Adviser's Office at (916) 654-4489 or (800) 822-6228 or e-mail at: [publicadviser@energy.ca.gov](mailto:publicadviser@energy.ca.gov).
