*IN THE MATTER OF:*

*2021-2023 Investment Plan Update for the
Clean Transportation Program*

Docket No. 21-ALT-01

Clean Transportation Program
Investment Plan Advisory Committee
Meeting

RE: Clean Transportation Program

Notice of Clean Transportation Program Investment Plan Advisory Committee Meeting

The Presiding Member of the Clean Transportation Program Investment Plan Advisory Committee (Advisory Committee), Commissioner Patty Monahan, and staff of the California Energy Commission (CEC) will conduct a public remote-access meeting of the Advisory Committee. Staff will present an overview of proposed allocations included in the revised staff draft report version of the *2021-2023 Investment Plan Update for the Clean Transportation Program*. Input is sought from the Advisory Committee, stakeholders, and the public regarding the proposed allocations and rationale. Staff will also present and seek input on new funding under Senate Bill (SB) 129 (Skinner, Chapter 69, Statutes of 2021), the Budget Act of 2021.

The workshop will be held remotely, consistent with Executive Order N-08-21 to continue to help California respond to, recover from, and mitigate the impacts of the COVID-19 pandemic. The public can participate in the workshop consistent with the direction in the executive order. Instructions for remote participation are below.

A quorum of Commissioners may attend, but no votes will be taken. The meeting will be held on:

September 16, 2021

9:00 a.m. - 1:00 p.m.

Remote Access Only

Agenda

- Presentations by CEC staff on the Clean Transportation Program, including updates on recent program implementation activities, funding additions from the state budget, and proposed allocations in the revised staff draft report version of the *2021-2023 Investment Plan Update*.
- Advisory Committee discussion on the *2021-2023 Investment Plan Update*.
- Public comment.

Background

Assembly Bill (AB) 118 (Núñez, Chapter 750, Statutes of 2007) created the Clean Transportation Program (formerly known as the Alternative and Renewable Fuel and Vehicle Technology Program). The statute authorizes the CEC to develop and deploy alternative and renewable fuels and advanced transportation technologies to help attain the state's climate change policies. AB 8 (Perea, Chapter 401, Statutes of 2013) re-authorizes the Clean Transportation Program through January 1, 2024, and specifies that the CEC allocate up to \$20 million per year (or up to 20 percent of each fiscal year's funds) in funding for hydrogen station development until at least 100 stations are operational. The CEC has an annual Clean Transportation Program budget of approximately \$100 million and provides financial and technical support for projects that:

- Reduce greenhouse gas emissions as well as criteria and toxic air pollutants from the transportation sector.
- Address the clean air, employment, and mobility needs of low-income or disadvantaged communities.
- Deploy or support the deployment of electric vehicle charging and hydrogen refueling infrastructure.
- Support workforce training programs, local and regional planning, and in-state manufacturing for zero-emission vehicles (ZEV) and infrastructure.

Statute (Health & Safety Code § 44272.7) requires the CEC to annually update the investment plan to communicate the CEC's strategic vision; determine the funding priorities and opportunities for the upcoming fiscal year; and provide an analytical rationale for proposed expenditures. The investment plan update also highlights and explains the rationale for any year-to-year changes to the Clean Transportation Program strategy and funding priorities. Projects funded by the CEC under the Clean Transportation Program must be consistent with the priorities established in the investment plan.

On July 12, 2021, Governor Gavin Newsom approved SB 129 – the Budget Act of 2021 (Skinner, Chapter 69, Statutes of 2021) which includes \$785 million to be administered by the CEC. These additional funds will be applied to help close funding gaps in infrastructure deployment, accelerate charging and hydrogen fueling station

deployment, and promote in-state ZEV and ZEV-related manufacturing. In accordance with SB 129, a majority of the General Funds provided to CEC is directed to specific funding categories.

The revised staff draft report version of the *2021-2023 Investment Plan Update*, and all documents relating to the *2021-2023 Investment Plan Update* proceeding (21-ALT-01), will be available in this online [Investment Plan Update docket](#) found at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=21-ALT-01>.

Statute (Health & Safety Code § 44272.5) also directs the CEC to create and consult with an advisory body as the CEC develops the investment plan. That body is the Advisory Committee and by law, the Advisory Committee must include, but is not limited to, representatives of fuel and vehicle technology entities, labor organizations, environmental organizations, community-based justice and public health organizations, recreational boaters, consumer advocates, academic institutions, workforce training groups, and private industry. The Advisory Committee shall also include representatives from the Resources Agency, the Transportation Agency, the Labor and Workforce Development Agency, and the California Environmental Protection Agency. The list of current members of the [Advisory Committee for the Clean Transportation Program](#) can be found at <https://www.energy.ca.gov/programs-and-topics/programs/clean-transportation-program/advisory-committee-clean-transportation>.

Remote Attendance

Presentations will appear on your computer/laptop/mobile device screen, and audio may be heard via the device or telephone. Please be aware that the Zoom meeting will be recorded. Zoom technical support is available at (888) 799-9666 ext. 2, or you may contact the CEC's Public Advisor's Office at publicadvisor@energy.ca.gov, (916) 654-4489, or (800) 822-6228.

Public Comment

Oral Comments:

Staff will accept oral comments from the public during the remote-access workshop. Depending on the number of members of the public that wish to speak, comments may be limited to three minutes per speaker or less and one speaker per organization. All comments will become part of the public record for this proceeding. To comment via the online Zoom platform, use the "raise hand" feature so the host can introduce you and unmute your microphone. To comment via the telephone, dial *9 to "raise your hand" and *6 to mute/unmute your phone line.

Written comments:

Written comments must be submitted to the Docket Unit by **5:00 p.m.** on September 30, 2021.

Written and oral comments, attachments, and associated contact information (e.g., address, phone number, email address) become part of the viewable public record. This information may also become available via any Internet search engine.

The CEC encourages use of its [electronic commenting system](https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=21-ALT-01) found at <https://efiling.energy.ca.gov/Ecomment/Ecomment.aspx?docketnumber=21-ALT-01>, which links to the comment page for this docket. Select or enter a proceeding to be taken to the "Add Comment" page. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached in a downloadable, searchable Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) file. Maximum file size is 10 MB.

Written comments may also be submitted by email. Include the docket number 21-ALT-01 and Advisory Committee Meeting in the subject line and send to docket@energy.ca.gov.

A paper copy may also be sent to:
