Get Ready for EV Charger Incentives in Alameda County

With increasing numbers of electric vehicles on California's roads, there's a growing demand for public charging infrastructure. Beginning December 1, the Alameda County Incentive Project will provide funds to make installing electric vehicle chargers more affordable for businesses, multifamily properties, local governments and nonprofits.

To get started on your charger planning, join panelists from the Center for Sustainable Energy, California Energy Commission and East Bay Community Energy in an upcoming webinar. They will cover project and site requirements, available funding and eligibility. A Q&A session will follow the presentation.

Alameda County Incentive Project Requirements Webinar

Tuesday, October 19

10 a.m. - 12 p.m. PST
