Oct. 27, 2021

Mr. Keith Winstead Compliance Project Manager California Energy Commission 1516 Ninth Street, MS 15 Sacramento, CA 95814-5512

Subject: Quarterly Operations Report - 2021 Q3

Mr. Winstead,

The Marsh Landing Generating Station achieved Commercial Operation status on May 1, 2013.

Per the requirements of Revised Staff Assessment please find enclosed a copy of the Quarterly Operations Report for the Commercial Operations period, July 1st – September 30th, 2021.

This report includes updates to the table of CEC requirements which include the new requirements associated with Black Start Operations.

This information is being submitted to comply with the requirements of the Energy Commission's Final Decision for this project, docket number 08-AFC-3C.

Please let me know if you have any questions. (925-779-6695)

Sincerely,

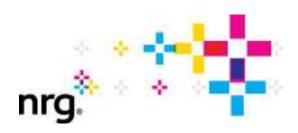

David Frandsen

David Frandsen MLGS Compliance Manager

Enclosures: 1 Electronic copy on Memory Stick of QOR 2021 Q3

MARSH LANDING GENERATING STATION QUARTERLY OPERATION REPORT

Report Period: Q3 July 1 – September 30, 2021

Marsh Landing Generating Station Quarterly Operation Report

4.0 Air Quality Documents Submitted with this Report

The following table lists the Conditions of Certification that require quarterly input, and an indication to what if any information is included in this operation report at the end of this section.

Condition of	Description	Item	Subsection
Certification	•	Included	
AQ-11	Natural Gas Sulfur Content	Yes	4.1
AQ-12	Hourly Heat Input Rate	Yes	4.2
AQ-13	Daily Heat Input Rate	Yes	4.3
AQ-14	Yearly Heat Input Rate	Yes	4.4
AQ-15	Combined Operating Hours	Yes	4.5
AQ-16	SCR/Oxidation Catalyst O&M	Yes	4.6
AQ-17	Operation Within Emission Limits	Yes	4.7
AQ-18	SU/SD Emission Limits	Yes	4.8
AQ-19	Combustor Tuning Limits	Yes	4.9
AQ-20	Daily Combined Emission Limits including SU/SD	Yes	4.10
	Daily Combined Emission Limits including		
AQ-21	SU/SD/Tuning	Yes	4.11
	Yearly Combined Emission Limits including		
AQ-22	SU/SD/Tuning/Malfunctions	Yes	4.12
AQ-23	Yearly Max Projected Toxic Emission Rates	Yes	4.13
AQ-31	Calculated Sulfuric Acid Mist Emission Rate	Yes	4.14
AQ-33	Yearly Combined Sulfuric Acid Mist Emissions	Yes	4.15
AQ-35	Air District Reports and Notifications	Yes	4.16
AQ-37	Air Permit Violation Reports	Yes	4.17
AQ-40	CEMS Audit Results	Yes	4.18
AQ-41	Renumbered to AQ-48		
AQ-42	Renumbered to AQ-49		
	Daily Combined Emissions Limits for Black Start	Yes	
AQ-44	Readiness Testing and Emergency Operations		4.19
	Annual Combined Emissions Limits for Black Start	Yes	
AQ-45	Readiness Testing Operations		4.20
	Annual Combined Emissions Limits for Black Start	Yes	
AQ-46	Emergency Operations		4.21
AQ-47	Black Start Emissions and Offsets Accounting	Yes	4.22
AQ-48	Diesel Engine Hours for Reliability-Related Testing	Yes	4.23
AQ-49	Limitations for Operation of Diesel Engine	Yes	4.24

Section 4.1 Natural Gas Sulfur Content

AQ-11 - Natural Gas Sulfur Content

The natural gas fuel supplied to Marsh Landing Generating Station was sampled and analyzed for sulfur content on a monthly basis during the report period of July 1 – September 30, 2021. The results of the analysis demonstrate that the sulfur content of the natural gas fuel was less than 1 grain per 100 standard cubic feet. The results from the analysis of the monthly samples are tabulated below for each month during the report period.

Month/Year	Sampling Date	Results (g/100 scf)
July/2021	7/7/21	0.267
August/2021	8/5/21	0.198
September/2021	9/7/21	0.207

Laboratory Analysis Reports are available upon request.

Section 4.2 Hourly Heat Input Rate

AQ-12 – Hourly Heat Input Rate

The hourly heat input rate to each Gas Turbine at Marsh Landing Generating Station was less than 2,202 MMBtu per hour, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. The following table provides the maximum hourly heat input rate, in MMBtu per hour for each Gas Turbine during the report period, and the date and hour that the maximum hourly heat input rate occurred.

Unit	Maximum Heat Input Rate (MMBtu/Hr)	Date/Hour
1	2071.3	7/12/2021, Hour 19
2	2088.7	8/2/2021, Hour 20
3	2067.8	8/2/2021, Hour 20
4	2055.4	8/4/2021, Hour 20

Detailed records of hourly heat input rates to each gas turbine are available upon request.

Section 4.3
Daily Heat Input Rate

AQ-13 – Daily Heat Input Rate

The daily heat input rate to each Gas Turbine at Marsh Landing Generating Station was less than 52,848 MMBtu per day, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. The following table provides the maximum daily heat input rate, in MMBtu per day for each Gas Turbine during the report period, and the date that the maximum daily heat input rate occurred.

Unit	Maximum Heat Input Rate (MMBtu/Day)	Date
1	41,816.0	9/9/2021
2	47,657.2	9/9/2021
3	42,814.0	9/9/2021
4	47,129.4	9/9/2021

Detailed records of daily heat input rates to each gas turbine are available upon request.

Section 4.4 Yearly Heat Input Rate

AQ-14 – Yearly Heat Input Rate

The combined cumulative yearly heat input rate to all four Gas Turbines at Marsh Landing Generating Station was less than 13,994,976 MMBtu per year, excluding heat input rate during black start readiness testing, commissioning, and emergency operations, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. The following table provides the combined cumulative yearly heat input rate for all four Gas Turbines, in MMBtu per year for each month during the report period.

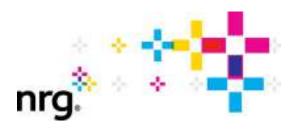

Month/Year	Combined Monthly Heat Input Rate (MMBtu/Month)	Combined Cumulative Yearly Heat Input Rate (MMBtu/Year)
July/2021	881,824.59	4,800,879.6
August/2021	263,140.22	3,772,572.8
September/2021	308,075.06	3,410,322.3

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Detailed records of yearly heat input rates to all four gas turbines are available upon request.

Note: The term "Year" is defined in the Permit to Operate issued by the BAAQMD for Marsh Landing Generating Station as "Any consecutive twelve-month period of time". Therefore, the values for the combined yearly operating hours listed above, in hours per year, are for a "rolling" 12-month period (e.g. the yearly value listed for July/2021 includes the 12-month period from August 2020 through July 2021).

Section 4.5 Combined Operating Hours

AQ-15 – Combined Operating Hours

The combined operating hours for all four units at Marsh Landing Generating Station was less than 7,008 hours per year, excluding operations for black start commissioning, readiness testing, and/or emergency operations, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. The following table provides the combined operating hours for all four units, in hours per year for each month during the report period.

Month/Year	Combined Monthly Operating Hours (Hours/Month)	Combined Yearly Operating Hours (Hours/Year)
July/2021	464.00	2,609.18
August/2021	136.75	2,023.70
September/2021	158.20	1,819.92

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Detailed records of the combined operating hours to all four units are available upon request.

Note: The term "Year" is defined in the Permit to Operate issued by the BAAQMD for Marsh Landing Generating Station as "Any consecutive twelve-month period of time". Therefore, the values for the combined yearly operating hours listed above, in hours per year, are for a "rolling" 12-month period (e.g. the yearly value listed for July 2021 includes the 12-month period from August 2020 through July 2021).

Section 4.6 SCR/Oxidation Catalyst O&M

AQ-16 – SCR/Oxidation Catalyst O&M

Each Gas Turbine at Marsh Landing Generating Station was properly abated by its associated Selective Catalytic Reduction (SCR) System and Oxidation Catalyst System during the report period of July 1 – September 30, 2021, whenever fuel was combusted in the gas turbine and the corresponding SCR catalyst bed temperature had reached the minimum operating temperature. The SCR System and Oxidation Catalyst System for each Gas Turbine was properly operated and maintained throughout this reporting period.

Detailed records of fuel combustion, SCR catalyst bed temperature and SCR System operation are available upon request.

Section 4.7 Operation Within Emission Limits

AQ-17 – Operation Within Emission Limits

Summary reports of NOx, CO and NH3 emissions for each Gas Turbine at Marsh Landing Generating Station are provided for each month during the report period of July 1 – September 30, 2021. The summary reports provide a listing of the maximum 1-hour values for NOx concentration, NOx lb/MMBtu, NOx lb/hr, NOx lb/hour containing a startup, CO concentration, CO lb/MMBtu, CO lb/hr, CO lb/hr containing a startup and the maximum 3-hour values for NH3 concentration. These requirements do not apply during black start readiness testing, commissioning, and/or emergency operations. The emission values listed in the summary reports are calculated directly from CEMS analyzer measurements and do not include any data recorded during startups, combustor tuning events or shutdowns except for the maximum NOx and CO lb/hr values during an hour containing a startup. The data in these reports demonstrate compliance with the emissions limits identified in Conditions 17 a, b, c, d and e.

Emissions of POC, SO2 and PM-10/PM are calculated using emission factors, either determined by source testing (POC, PM-10/PM), or from an EPA default value (SO2, for PNG fuel) and the maximum hourly heat input rate, in lb/MMBtu recorded during the report period of July 1 – September 30, 2021. (Values of Maximum Hourly Heat Input Rate are listed in AQ-12). The maximum calculated values for the emissions of POC, SO2 and PM-10/PM are listed in the following table. The values listed in this table demonstrate compliance with the emissions limits identified in Conditions 17 f, g, h and i.

		Ma	ximum Calculate 7/1/2021 – 9/3												
	POC Lb/MMBtu	Lb/MMBtu Lb/Hr Lb/MMBtu Lb/Hr Lb/MMBtu Lb/Hr													
Unit 1	0.00042	0.87	0.0006	1.24	0.0020	4.14									
Unit 2	0.00042	0.88	0.0006	1.25	0.0032	6.68									
Unit 3	Unit 3 0.00113 2.34 0.0006 1.24 0.0020 4.14														
Unit 4	0.00082	1.69	0.0006	1.23	0.0025	5.14									

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Detailed records of emissions data are available upon request.

Section 4.8 SU/SD Emission Limits

AQ-18 – Startup and Shutdown Emissions

The mass emission rates for each of the Gas Turbines did not exceed the limits established for startups and shutdowns during the report period of July 1 – September 30, 2021.

The limits contained in AQ-18 for mass emissions of NOx (as NO2), CO and POC (as CH4) for each startup, during each hour containing a startup, and for each shutdown are listed in the following table for reference. These requirements do not apply during black start readiness testing, commissioning, and/or emergency operations. Additionally, the startup of each Gas Turbine did not exceed 30 minutes in duration and the shutdown of each Gas Turbine did not exceed 15 minutes in duration during the report period of July 1 – September 30, 2021.

	Maximum Emissions Per Startup	Maximum Emissions During Hour Containing a Startup	Maximum Emissions Per Shutdown	
Pollutant	(lb/startup)	(lb/hour)	(lb/shutdown)	
NOx (as NO2)	36.4	45.1	15.1	
СО	216.2	541.3	111.5	
POC (as CH4)	11.9	28.5	5.4	

The following tables provide a listing of the Startup and Shutdown mass emission rates of NOx, CO and POC for each Gas Turbine at Marsh Landing Generating Station during the report period of July 1 – September 30, 2021. Separate tables are provided for each Gas Turbine for all startups, for all hours containing a startup and for all shutdowns.

No black start commissioning, readiness testing or emergency operation activities occurred during the report period.

Unit 1 Startup Emissions 7/1/2021 – 9/30/2021

Detailed Records of all Startup and Shutdown emissions for each of the Gas Turbines are available upon request.

Section 4.9 Combustor Tuning Limits

AQ-19 – Combustor Tuning Limits

No online combustor tuning occurred during the July 1 – September 30, 2021 reporting period.

The hourly emission limits during a tuning event, in pounds per hour for each pollutant, are provided in the table for reference.

Pollutant	Hourly Emission Limit During Combustor Tuning Event	Maximum Hourly Emission During Combustor Tuning	Date/Hour
	(Pounds/Hour)	Event (Pounds/Hour)	
NOx	80	N/A	N/A
СО	450	N/A	N/A
POC	30	N/A	N/A

Section 4.10
Daily Combined Emission Limits including SU/SD

AQ-20 – Daily Combined Emissions Limits including SU/SD

The daily combined emissions of NOx, CO, POC's, PM-10 and SO2 from all four Gas Turbines at Marsh Landing Generating Station was less than the corresponding daily emission limit for each pollutant, in pounds per day, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. The daily combined emissions include emissions generated during gas turbine start-ups and shutdowns, **but exclude emissions generated during readiness testing for black start, commissioning and/or emergency operations.** The following table provides the maximum daily combined emission, in pounds per day for each pollutant during the report period, and the date that the maximum daily emission occurred. The corresponding daily combined emission limit, in pounds per day for each pollutant, is also provided in the table for reference.

Pollutant	Combined Daily Emission Limit (Pounds/Day)	Maximum Combined Daily Emission (Pounds/Day)	Date
NOx	2,468	1,165.15	9/9/2021
СО	4,858	889.43	7/31/2021
POC	476	124.60	9/9/2021
PM-10	864	439.59	9/9/2021
SO2	596	107.65	9/9/2021

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Detailed records of daily combined emissions from all four gas turbines are available upon request.

Section 4.11
Daily Combined Emission Limits including SU/SD/Tuning

AQ-21 – Daily Combined Emissions Limits including SU/SD/Tuning

No combustor tuning occurred which required operation outside of normal operating emission limits during the reporting period of July 1 – September 30, 2021.

The following table provides the daily combined emissions, in pounds per day for each pollutant, for any calendar day on which a tuning event occurred during the report period, and the date that the daily emission and tuning event occurred. These limits exclude emissions generated during black start readiness testing, commissioning, and emergency operations. The corresponding daily combined emission limit, in pounds per day for each pollutant, for any calendar day on which a tuning event occurs, is also provided in the table for reference.

Pollutant	Combined Daily Emission Limit on Days With Tuning Event (Pounds/Day)	Maximum Combined Daily Emission on Days With Tuning Event (Pounds/Day)	Date
NOx	2,941	N/A	N/A
СО	8,378	N/A	N/A
POC	693	N/A	N/A
PM-10	864	N/A	N/A
SO2	596	N/A	N/A

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Section 4.12 Yearly Combined Emission Limits including SU/SD/Tuning/Malfunctions

AQ-22 – Yearly Cumulative Combined Emission Limits

The yearly cumulative combined emissions of NOx, CO, POC, PM-10 and SO2 from all four Gas Turbines at Marsh Landing Generating Station was less than the corresponding yearly cumulative combined emission limit for each pollutant, in tons per year, as recorded by the Continuous Emissions Monitoring Systems (CEMS) during the report period of July 1 – September 30, 2021. These limits exclude emissions generated during black start readiness testing, commissioning, and/or black start emergency operations. The following table provides the yearly combined cumulative emissions, in tons per year for each pollutant, for each month during the report period. The corresponding yearly cumulative combined emission limit, in tons per year for each pollutant, is also provided in the table for reference.

Month/Year	Cumulative Combined Emissions During Consecutive Twelve-Month Period (Tons/Year)						
	NOx CO POC PM-10 SO2						
Emission Limit	78.57	138.57	14.21	31.54	4.94		
July/2021	16.97	23.75	1.33	6.67	1.44		
August/2021	13.57	21.14	1.16	5.09	1.13		
September/2021	12.33	18.73	1.12	4.48	1.02		

No black start commissioning, readiness testing, or emergency operation activities occurred during the report period.

Detailed records of yearly cumulative combined emissions from all four gas turbines during any consecutive twelve-month period are available upon request.

Section 4.13 Yearly Max Projected Toxic Emission Rates

AQ-23 – Yearly Maximum Projected Toxic Emission Rates

The maximum projected annual toxic air contaminant emissions from Marsh Landing Generating Station were calculated using the emission rates determined by source testing and the maximum permitted combined heat input for the facility of 13,994,976 MMBtu/year. The following table provides the calculated projected values of the annual toxic air contaminant combined emissions, in pounds per year along with the corresponding limits. The limits have changed due to the Black Start additions to the permit.

Toxic Air Contaminant	Projected Annual Emissions	Limit
	(Pounds/Year)	(Pounds/Year)
Formaldehyde	995.0	<u>8,459<mark>7,785</mark></u>
Benzene	175.2	<u>205202</u>
PAH's	1.06	2.00 1.98

Detailed records of the source test data are available upon request.

Section 4.14 Calculated Sulfuric Acid Mist Emission Rate

AQ-31 – Calculated Sulfuric Acid Mist Emission Rate

The Sulfuric Acid Mist (SAM) emission rate was calculated using the cumulative 12-month total heat input for all four Gas Turbines and the highest emission factor determined from any Sulfuric Acid Mist source testing (0.0013 lb/MMBtu from April, 2014 source testing). The calculated cumulative 12-month SAM mass emission rate is listed in the table below for each month during the report period of July 1 – September 30, 2021.

Month/Year	Combined Cumulative 12- month Heat Input Rate (MMBtu/Year)	Combined Cumulative 12- month SAM Emission Rate (Tons/Year)
July/2021	4,800,879.6	3.1
August/2021	3,772,572.8	2.5
September/2021	3,410,322.3	2.2

The maximum calculated cumulative 12-month SAM mass emission rate during the report period of July 1 – September 30, 2021, was 3.1 tons. Since the maximum calculated cumulative 12-month SAM mass emission rate was less than the limit of 7.0 tons in a consecutive 12-month period, the requirement to utilize air dispersion modeling to determine the impact of the sulfuric acid mist emissions was not triggered.

Detailed records of the calculated sulfuric acid mist emissions are available upon request.

Section 4.15 Yearly Combined Sulfuric Acid Mist Emissions

AQ-33 – Yearly Combined Sulfuric Acid Mist Emissions

The calculated cumulative Sulfuric Acid Mist emissions from all four Gas Turbines at Marsh Landing Generating Station was less than 7 tons in any consecutive 12 month period during the report period of July 1 – September 30, 2021. The Sulfuric Acid Mist (SAM) emission rate was calculated using the cumulative 12-month heat input for all four Gas Turbines and the highest emission factor determined from any Sulfuric Acid Mist source testing (0.0013 lb/MMBtu, from April 2014 source testing). The calculated cumulative 12-month SAM mass emission rate is listed in the table below for each month during the report period of July 1 – September 30, 2021.

Month/Year	Combined Cumulative Yearly Heat Input Rate (MMBtu/Year)	Combined Cumulative Yearly Sulfuric Acid Mist Emissions (tons/Year)	
Emission Limit	N/A	7.0	
July/2021	4,800,879.6	3.1	
August/2021	3,772,572.8	2.5	
September/2021	3,410,322.3	2.2	

Detailed records of the calculated sulfuric acid mist emissions are available upon request.

Section 4.16 Air District Reports and Notifications

AQ-35 – Air District Reports and Notifications

All reports and notifications for Marsh Landing Generating Station that are required by District Rules or Regulations, or by Federal Regulations were submitted in accordance with all specified procedures and time limits during the report period of July 1 – September 30, 2021. The following reports and notifications were submitted for Marsh Landing Generating Station during this reporting period:

Monthly CEMS Report Submittals

- 1. Monthly CEM Report for June 2021.
- 2. Monthly CEM Report for July 2021.
- 3. Monthly CEM Report for August 2021.

Monitor Breakdown Report Submittals

No breakdown reports were submitted during third quarter 2021.

Emission Excess Report Submittals

No excess emissions reports were submitted during third quarter 2021.

Equipment Breakdown Report Submittals

No equipment breakdown reports were submitted during third quarter 2021.

Quarterly Emissions Data Report Submittals – submitted electronically to USEPA

- 1. Unit 1 Quarterly Emissions Data Report for QTR 2-2020.
- 2. Unit 2 Quarterly Emissions Data Report for QTR 2-2020.
- 3. Unit 3 Quarterly Emissions Data Report for QTR 2-2020.
- 4. Unit 4 Quarterly Emissions Data Report for QTR 2-2020.

Other Emissions Report Submittals

None.

Agency Notifications

1. None.

Copies of all reports and notifications listed above, or Feedback Reports for electronic submittals are available upon request.

Section 4.17 Air Permit Violation Reports

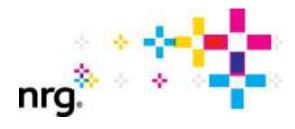

AQ-37 - Permit Condition Violation Notifications

During the report period of July 1 – September 30, 2021 no permit condition violations occurred or were reported for Marsh Landing Generating Station.

Notifications of Air Permit Violations 7/1/2021 – 9/30/2021									
Date of Violation	· · · · · · · · · · · · · · · · · · ·								
None	None								

Section 4.18 CEMS Audit Results

AQ-40 – CEMS Audits

As required under 40 CFR Part 75, quarterly reports are prepared and submitted to the USEPA for each unit at Marsh Landing Generating Station. The quarterly reports are submitted electronically to the USEPA via the EPA's Emission Collection and Monitoring Plan System (ECMPS) Client Tool.

As part of the process to prepare the quarterly reports for submittal to the USEPA, the reports must undergo an extensive evaluation process using the ECMPS Client Tool that checks the report data for errors and conformance with the continuous emission monitoring requirements of 40 CFR Part 75. The following report files must be evaluated and found to be free of all errors prior to submittal to and acceptance by the USEPA:

- Emissions Data Files
- Monitoring Plan Files
- Quality Assurance and Certification Test Files
- QA Certification Event Files
- Test Extensions and Exemptions Files

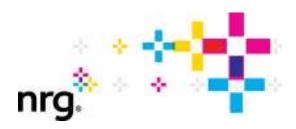

As these reports files are evaluated by the ECMPS Client Tool, the following checks are performed to determine compliance with the requirements of 40 CFR Part 75:

- Hourly Data Validity
- Proper application of Missing Data Substitution values and related calculations
- Results of all On-line Calibration Error Tests and Calibration status of parameters
- Results of all QA and Certification Tests and QA status of parameters
- Accuracy of all calculated parameters
- Proper application Of Bias Adjustment Factor

After the quarterly report is determined to be free of errors, the report can then be submitted electronically to the USEPA. After successful submittal of the quarterly reports, a Feedback Report is returned by the EPA indicating that the report was accepted with no errors, and was therefore in compliance with the requirements of 40 CFR Part 75.

Copies of the EPA Feedback Reports for the quarterly reports for each unit at Marsh Landing Generating Station covering the reporting period July 1 – September 30, 2021 are available upon request.

Section 4.19
Daily Combined Emission Limits For Black Start
Readiness Testing And Emergency Operations

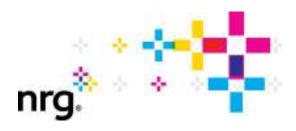

<u>AQ-44</u> – Daily Combined Emissions Limits for Black Start Readiness Testing and Emergency Operations

No black start readiness testing or emergency operations occurred during the reporting period of July 1 – September 30, 2021.

The following table provides the daily combined emissions, in pounds per day for each pollutant, for any calendar day on which black start readiness testing or emergency operations occurred during the report period, and the date that the daily emission and black start operations event occurred. These emissions exclude normal operating emissions. The corresponding daily combined emission limit, in pounds per day for each pollutant, for any calendar day on which black start operations event occurs, is also provided in the table for reference.

Pollutant	Combined Daily Emissions Limit on Days With Black Start readiness Testing and Emergency Operation (Pounds/Day)	Maximum Combined Daily Emission on Days With Readiness Testing and Emergency Operation (Pounds/Day)	Date
NOx	8,048	N/A	N/A
СО	100,673	N/A	N/A
POC	7,422	N/A	N/A
PM-10	255	N/A	N/A
SO2	174	N/A	N/A

Section 4.20 Annual Combined Emission Limits For Black Start Readiness Testing Operations

<u>AQ-45</u> – Annual Combined Emissions Limits for Black Start Readiness Testing Operations

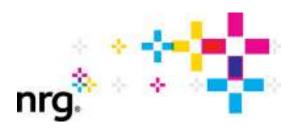

No black start readiness testing operations occurred during the reporting period of July 1 – September 30, 2021.

The following table provides the combined emissions from Units 3 and 4, in pounds per year for each pollutant associated with black start readiness testing operations occurring during the report period. These emissions exclude normal operating emissions. The corresponding annual combined emission limits, in pounds per year for each pollutant, are also provided in the table for reference.

Annual Emissions From Black Start Readiness Testing Operations 7/1/2021 – 9/30/2021							
Month/Year	Month/Year NOx Limit CO Limit POC Limit PM-10 Limit SO2 Lim 414 lb/yr 12,936 lb/yr 1,011 lb/yr 15 lb/yr 10 lb/y						
July/2021	N/A	N/A	N/A	N/A	N/A		
August/2021 N/A N/A N/A N/A							
September/2021	N/A	N/A	N/A	N/A	N/A		

Note: The term "Year" is defined in the Permit to Operate issued by the BAAQMD for Marsh Landing Generating Station as "Any consecutive twelve-month period of time". Therefore, the values for the combined yearly operating hours listed above, in hours per year, are for a "rolling" 12-month period (e.g. the yearly value listed for July/2021 includes the 12-month period from August 2020 through July 2021).

Section 4.21 Annual Combined Emission Limits For Black Start Emergency Operations

<u>AQ-46</u> – Annual Combined Emissions Limits for Black Start Readiness Testing and Emergency Operations

No black start emergency operations occurred during the reporting period of July 1 – September 30, 2021.

The following table provides the combined emissions from Units 3 and 4, in pounds per year for each pollutant associated with black start readiness testing and emergency operations occurring during the report period. These emissions exclude normal operating emissions.

The corresponding annual combined emission limits, in pounds per year for each pollutant, are also provided in the table for reference.

Annual Emissions From Black Start Readiness Testing and Emergency Operations 7/1/2021 – 9/30/2021								
Month/Year	nth/Year NOx Limit CO Limit POC Limit PM-10 Limit SO2 Limit 16,283 lb/yr 212,725 lb/yr 15,750 lb/yr 518 lb/yr 354 lb/y							
July/2021	N/A	N/A	N/A	N/A	N/A			
August/2021 N/A N/A N/A N/A								
September/2021	N/A	N/A	N/A	N/A	N/A			

Note: The term "Year" is defined in the Permit to Operate issued by the BAAQMD for Marsh Landing Generating Station as "Any consecutive twelve-month period of time". Therefore, the values for the combined yearly operating hours listed above, in hours per year, are for a "rolling" 12-month period (e.g. the yearly value listed for July/2021 includes the 12-month period from August 2020 through July 2021).

Section 4.22 Black Start Emissions And Offsets Accounting

AQ-47 – Black Start Emissions and Offsets Accounting

In the event that total emissions from commissioning activities, readiness testing for black start capability, and black start emergency operations exceed (a)· 16,283 pounds of NOx and/or (b) 15,750 pounds of POC during any 12-month period that includes commissioning activities, the owner/operator shall submit additional offset credits for the excess emissions according to the procedures set forth in District Regulation 2-2-302.1 through 302.4.

The following table provides the combined emissions from Units 3 and 4, in pounds per year for each pollutant associated with black start emergency operations occurred during the report period. These emissions exclude normal operating emissions. The corresponding annual combined emission limit, in pounds per year for each pollutant, is also provided in the table for reference.

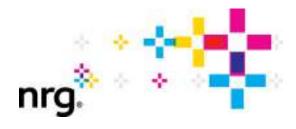

Aı	nnual Emissions From All Black Start Em 7/1/2021 – 9/30/2021											
Month/Year NOx Limit POC Limit 16,283 lb/yr 15,750 lb/yr												
July/2021	N/A	N/A										
August/2021	N/A	N/A										
September/2021	N/A	N/A										

No black start emergency operations occurred during the reporting period of July 1 – September 30, 2021, and no offset credits have been surrendered.

Note: The term "Year" is defined in the Permit to Operate issued by the BAAQMD for Marsh Landing Generating Station as "Any consecutive twelve-month period of time". Therefore, the values for the combined yearly operating hours listed above, in hours per year, are for a "rolling" 12-month period (e.g. the yearly value listed for July/2021 includes the 12-month period from August 2020 through July 2021).

MARSH LANDING GENERATING STATION QUARTERLY OPERATION REPORT

Section 4.23
Diesel Engine Hours for Reliability-Related Testing

For Submittal to California Energy Commission Sacramento, California 08 - AFC - 3C

AQ-4841 – Diesel Engine Hours for Reliability-Related Testing

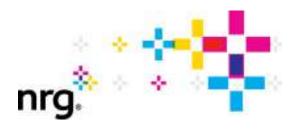

The Emergency Standby Diesel Generator (S-7) has been operated for a total of 16.6 hours and the Emergency Standby Diesel Fire Pump (S-8) operated for 18.1 hours during the calendar year 2021 for the purpose or reliability-related testing at Marsh Landing Generating Station and are therefore in compliance with the limit of 50 hours per year.

The hours that the Emergency Standby Diesel Generator (S-7) and the Emergency Standby Diesel Fire Pump Engine (S-8) were operated for reliability-related testing are provided in the following table for both the current report period of July 1 - September 30, 2021 and for the 2021 calendar year.

Diesel Engine Source	Hours Operated for Reliability-Related Testing 7/1/2021 – 9/30/2021	Hours Operated for Reliability-Related Testing Calendar Year 2021
Emergency Standby Diesel Generator (S-7)	6.1	16.6
Emergency Standby Diesel Fire Pump Engine (S-8)	5.89	18.1

MARSH LANDING GENERATING STATION QUARTERLY OPERATION REPORT

Section 4.24 Limitations for Operation of Diesel Engine

For Submittal to California Energy Commission Sacramento, California 08 – AFC – 3C

AQ-4942 – Limitations for Operation of Diesel Engine

During the current report period of July 1 - September 30, 2021, the Emergency Standby Diesel Generator (S-7) at Marsh Landing Generating Station has been operated for a total of 6.1 hours solely for the purpose of reliability-related testing, and the Emergency Standby Diesel Fire Pump Engine (S-8) was operated for a total of 5.89 hours for reliability-related testing. Neither the Emergency Standby Diesel Generator, nor the Emergency Standby Diesel Fire Pump Engine have been operated during the report period for the purpose of mitigating an emergency condition or to demonstrate compliance with a District, State or Federal emission limit. Therefore, the Emergency Standby Diesel Generator (S-7) and the Emergency Standby Diesel Fire Pump Engine (S-8) at Marsh Landing Generating Station have been operated in compliance with the requirements of Condition of Certification AQ-42 during the current report period of July 1 - September 30, 2021.

MARSH LANDING GENERATING STATION QUARTERLY OPERATION REPORT

Section 5.0 Compliance Matrix

For Submittal to California Energy Commission Sacramento, California 08 – AFC – 3C

Black Start Operation	30 days after end of quarter				Add with Black Start Amendment February 2019						Ameneded February 2019	
OPS	AQ-46	AQ-46 Annual Emission Limits for Black Start Operations: The owner/operator shall not allow total combined emissions from readiness, testing for black start capability and black start emergency operations at Gas Turbines 5-3 and S-4 to exceed the following limits during any consecutive twelve-month period: (a) NOx (sa NOx)	For days when readiness testing occurs, a summary of operation events, operating data and associated monitoring records shall be included in the subsequent quarterly operation report (AG-SCS).	Black Start Operation	As required	NRG			Add with Black Start Amendment February 2019						Ameneded February 2019	Scott Seipel
COMM / OPS	<u>AQ-47</u>	In the event that total emissions from commissioning activities, readiness testing for block start capability, and black start emergency operations, exceed (a): 16,283 pounds of NOx and/or (b): 15,759 pounds of POC during, any 12-month period that includes commissioning activities, the owner/operator shall submit additional offset credits for the excess emissions according to the procedures set forth in District Regulation 2:2-	If facility operations require additional offset credits to be_ surrendered to the District, an identification of the specific offset, credits surrendered, a summary of operation events, operating data and associated monitoring records shall be included in the subsequent quarterly operation report (AQ-SCB).	Black Start Commissioning	As Required	NRG			Add with Black Start Amendment February 2019						Ameneded February 2019	Scott Selpel
OPS	AQ-48	The project owner shall not exceed 50 hours per year per engine for reliability related testing on the dissel emergency generator and dissel fire pump engines. (Basis: Title 17, California Code of Regulations, Section 93115, ATCM for Stationary CI Engines)	The project owner shall verify compliance with this Condition of Certification in each quarterly report required by COC AQ-SC8.	Quarterly	30 days after end of quarter	NRG			AQ-41 added with petition to amend approved 11/17/2014. Revised to AQ-48 with February 2019 Black Start Amendment						Ameneded February 2019	Scott Seipel
OPS	AQ-49	The project owner shall operate each emergency standby engine only for the following purposes: to migrate emergency conditions, for emission testing, or for elicitation purposes: to emission ender the emergency generator and diesels free pump engines. (Basis: Title 17, California Code of Regulations, Section 93115, ATCM for Stutionary CE Engines)	The project owner shall verify compliance with this Condition of Certification in each quarterly report required by COC AQ-SC8.	Quarterly	30 days after end of quarter	NRG			AQ-42 added with petition to amend approved 11/17/2014. Revised to AQ-49 with February 2019 Black Start Amendment						Ameneded February 2019	Scott Seipel
OPS	AQ-50	The project owner shall operate each emergency standby engine only when a non resettable totalizing meter (with a minimum display capability of 9,999 hours) that measures the hours of operation for the engine in stalkid, operated and polymmia-maintained. (Basis: Tile 17, California Codo of Regulations, Section 83115, ATCM for Stationary Ol Engine	The project owner shall make the site available for inspection by representatives of the District, ARB and the Commission.	As Required	As Required	NRG			AQ-43 added with petition to amend approved 11/17/2014. Revised to AQ-50 with February 2019 Black Start Amendment						Ameneded February 2019	Scott Selpel
OPS	AQ-51	Records: The project owner shall maintain the following monthly record in a District-approved log for at least 36 months from the date of entry (60 months in the facility has been issued a Talibe Wagir Facility Review Permit or a Synthetic Miror Operating Permit). Log entries shall be retained on-site, either at a central location or at the engine's bocation, and made immediately available to the District staff and CPM upon request. a) Hours of operation for reliability testing. b) Hours of operation for reliability testing. c) Hours of operation for emission testing. c) Hours of operation for emission testing. d) For each emergency, the nature of the emergency condition. e) Fuel usage for each enginge for each enging for each enging (6) (Basis: Title 17, California Code of Regulations, Section 93115, ATCM for Sistindary CI Engines)	The project owner shall make the site and records available for inspection by representatives of the District, ARB and the Commission.	As Required	As Required	NRG			AQ-44 added with petition to amend approved 11/17/2014. Revised to AQ-51 with February 2019 Black Start. Amendment						Ameneded February 2019	Scott Selpel
OPS	AQ-52	If the emergency standby engine is located on school grounds or within 500 feet of any school ground, the following requirements shall apply. MLGS is NOT within 500 feet of any school grounds.	The project owner shall make the site and records available for inspection by representatives of the District, ARB and the Commission.	As Required	As Required	NRG			AQ-45 added with petition to amend approved 11/17/2014. Revised to AQ-52 with February 2019 Black Start Amendment						Ameneded February 2019	Scott Seipel
PC-1	<u>BIO-1</u>	Assign a Designated Biologist to the project. The DB must meet the specified qualifications. No site or related facility activities shall commence until an approved Designated Biologist is available to be on site. Adhere to condition specification if the DB needs to be replaced	Submit the resume of the proposed DB, with at least 3 references and contact information, to the (CPM) for approval.	At least 90 days prior to the start of any site (or related facilities) mobilization	11/17/10	GenOn	9/21/2010 Submission 002 Submission 006 &012&020 2/2/2012 Submittal 088	2010-1221 Returned 10/6/2010	Approved 10/20/2010 Addnti resumes submitted 2/2/2012 Approved addnti monitors 2/24/12		9/21/2010	CEC approval per CEC Blue sheet report dated 10-06-10 (on file) Additional Verifications per implied acceptance of MCR No.2 & MCR No. 14 & MCR No.18				Stephen L. Erickson
CONS	BIO-2	Ensure that the DB parforms the specified 1. through 0.d the condition during any tiet (or related celluties) mobilization, ground disturbance, grading, construction, operation, and closure activities. The DB may be assisted by the approved Biological Monitor(s), but remains the contact for the project owner and CPM.	Designated Biologist must maintain written records of the tasks described in condition and provide summaries for inclusion in the MCR.	Monthly	Include in MCR	BIOLOGIST					Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Stephen L. Erickson
CONS	BIO-3	Construction Operation Manager shall act on the advice of the Bit on enumeron conformance with the blobgical resources Conditions of Certification. If required by the DB, Construction/Operation Manager shall halt all activities in areas specified by the DB. The Designated Biologist shall follow the process 1, through 3 in the condition if construction is halted	Designated Biologist must notify the CPM immediately of any non- compliance activity or halt of any site mobilization, ground disturbance, grading, construction, and ops activities.	As Required	As required	BIOLOGIST										Stephen L. Erickson

CONS	CUL-8	If soils must be acquired from a non commercial borrow site, the CRS shall survey the borrow site for cultural resources and record on DPR 523 forms and that are identified and convey the results and recommendation for further action to the CPM	Notify the CRS and CPM as soon as it is known that non commercial borrow site will be used and provide documentation of previous archaeological surveys. If none available site must be surveyed 30 days before any soil borrow activates and submit the survey and recommendation to the CPM.	At least 30 days prior to and non commercial site borrow activities	As required	CULTURAL SPECIALIST			Nothing required at this time			Verified in Monthly reports in section 2.12. Requirement complete with suspension Approval received per teleconferance and verified by email 9.14.12				Stephen L. Erickson
CONS	ELEC-1	Prior to the start of any increment of electrical construction for electrical experience and systems 480 volts and higher, with the exception of underground duct work and any physical layout drawings and felanded to code compliance and file safety, submit for CBO design review and approved the proposed final design, specifications and calculations.	Submit to the CBO for design review and approval the items listed in this condition	At least 30 days prior to start of construction of each increment of electrical construction	As required	KIEWIT			Nothing required at this time			Verified in Monthly reports in section 2.13.				Tharu Nadarajah
CONS	GEN-1	Design, construct, and inspect the project in accordance with the codes listed in the condition.	The project owner shall submit to the CPM and the CBO a statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the Energy Commission's decision have been met in the area of facility design. The project owner shall provide the CPM a copy of the certificate of occupancy within 30 days of receipt from the CBO.	Five (5) days prior to requesting the issuance of the certificate of occupancy	2/24/13	KIEWIT										Mike Rinehart
PC-2	GEN-2a	Furnish the CPM and the CBO with a schedule of facility design submittals, and master drawings and master specifications list. The master drawings and master specifications list shall contain a list of proposed submittal packages of designs, calculations, and specifications for professor structures, systems, and equipment. The schedule shall contain the plasmed date of each submittal to the CBO Provide specific packages to the CPM upon request. Also price and calculations for all construction work shall be submitted to the CBO for approved.	Submit to the CBO and to the CPM the schedule, and the master drawings and master specifications lat of documents to be submitted to the CBO for review and approval.	At least 60 days prior to the start of rough grading	1/24/11	KIEWIT	11/19/2010 Submittal 016 1/4/11 to the CBO	2010-1726	Approved 12/15/2010	11/18/2010	11/19/2010	CEC Acceptance Per email from J Caswell on 12/15/10 (TN2010- 1726) Additionally Verified on MCR No. 4	Approved			Sarah Copeland
CONS	GEN-2b	Furnish the CPM and the CBO with an updated schedule of facility design submittals	Provide schedule updates in the monthly compliance report	Monthly	Include in MCR	KIEWIT					Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Sarah Copeland
CONS	GEN-3	Make payments to the CBO for design review, plan check and construction inspections based upon a reasonable fee schedule to be negotiated between NCPA and the CBO.	Send copy of CBO's receipt of payment to CPM in next MCR indicating applicable fees have been paid.	Monthly	Include in MCR	GenOn					Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Chuck Hicklin
PC-2	GEN-4	Assign a California registered architect, or a structural or civil engineer as the resident engineer (RE) in charge of the project.	Submit to the CBO for review and approval, the resume and registration number of the RE and any other delegated engineers assigned to the project. Notify the CPM of the CBO's approvals of the RE and other delegated engineer(s) within five days of the approval.	At least 30 days prior to start of rough grading	2/23/11	KIEWIT	12/3/2010; To CBO 1- 26-11 Submittal 019 Submittal 036	2010-1785	Approved (No Date Given)	11/19/10	12/3/10	2/4/2011 Verified on MCR No. 5 2/11/2011		2/4/2011		Gene Amrhein
PC-2	GEN-5	Assign at least one of each of the following California registered engineers to the project a child engineer, a solls, geotechnical, or child engineer experienced and knowledgeable in the practice of solls engineering and an engineering packagist, and design engineer who is either a structural engineer or a continue engineer trail competent and proficient in the design of power plant structures and equipment supports; a mechanical engineer; and an electrical engineer.	Submit to the CBO for review and approval, resumes and registration numbers of the responsible engineers. Notify the CPM of the CBO's approvals of the responsible engineers within five days of the approval.	At least 30 days prior to start of rough grading	2/23/11	KIEWIT	To CBO 1/17/11 To CEC 2/16/2011 Submittal 036 6/28/2011 addral Submittal 052 Submittal 057		CBO Approved 2-16-11 CEC Approved 3/16/201 Submitted Tharu Nadaraj (Electrical) and Chad Enders (Civil) for approval 6/28/2011 Mr. Nadaraj and Mr. Enders resumes approved 8/12/11 Submitted Gen Amhein, Chad Enders and Shong Liu for Design Engineer 8/15/2011	11/30/10	1/17/11	2/16/2011 Verified through CBO Returns and MCR No.7 4/16/2011		2/16/2011		Jake Albers
CONS	GEN-G	Assign to the project, qualified and certified special inspector(s) who shall be responsible for the special inspections required by the 2007 CBC.	Submit to the CBO for review and approval, with a copy to the CPM, the name(s) and qualifications of the certified weld inspector(s), or other certified special inspector(s) assigned to the project	At least 15 days prior to start of an activity requiring special inspection	As required	KIEWIT	To CBO 2/2/11 Sent to CE 9/23/2011 Submittal 064 Submittal 065		CBO Approved 2-24-11 9/23/2011 Sent Quals to CEC for Jay Locatelli, Micah Ek, Jeffrey Brooks, Jason Burris, Ryan Doyel, and Laura Johnson. Also sent CBO approvals for Jahn Sasser, Stanley Silva, and Anselmo De Haro. CEC approval 10/5/11.		2/2/11	2/24/2011 Verified MCR No.7 4/16/2011		2/24/2011		Dennis Chambers
CONS	GEN-7	If any discrepancy in design and/or construction is discovered in any engineering work that has undergone CBO design review and approval, the project owner shall document the discrepancy and recommend required corrective actions.	Transmit a copy of the CBO's approval of any corrective action taken to resolve a discrepancy to the CPM in the next monthly compliance report. If any corrective action is disapproved, the project owner shall advise the CPM, within five days, of the reason for disapproval and the revised corrective action to obtain CBO's approval.	Monthly	Include in MCR	KIEWIT					Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Gene Amrhein to communicate any CBO issues back to KC.
CONS	GEN-8	Obtain the CBO's final approval of all completed work that has undergone CBO design review and approval. Request the CBO to inspect the completed structure and review the submitted documents. Notify the CPM after obtaining the CBO's final approval. Retain one set of approved engineering plans, specifications, and calculations (including) all approved changes at the project site or at another accessible location during the operating life of the project. Electronic copies of the approved plans, specifications, calculations, and marked-up as-builts shall be provided to the CBO for retention by the CPM.	Submit to the CBO, with a copy to the CPM, in the next monthly compliance report, (a) a written notice that the completed work is ready for final inspection, and (b) a signed statement that the work conforms to the final approved plans.	Within 15 days of completion of any work	As required Include in MCR	KIEWIT			Submittal as available in Monthly reports in Section 2.20			Currently No noted issues with any Monthly report				Raja Ponniah
PC-2	<u>GEO-1</u>	Specifically include in the Solis and Engineery Report, laboratory test data, associated geotechnical engineering analyses, and a thorough discussion of the potential for liquidaction and associated latest spread, and dynamic compaction. The sport should also include recommendations for ground improvement and or foundation systems necessary to mitigate these potential geologic hazards, if present.	Include in the application for a grading permit a copy of the Soils Engineering Report which address the potential for liquefaction and associated latest spread; settlement due to compressible soils, dynamic compaction; and the possible presence of operative clay soils, and a summary of how the results of the analysis were incorporated into the project foundation and grading plan design of review and comment by the Chief Building Official (CBO)	At least 30 days prior to the start of grading	2/23/11	KIEWIT	2/19/2011 to CEC and CBO Submittal 037		Approved 3/28/2011	2/18/11	2/19/11	3/28/2011 CEC agrees that all HAZ submittals made to date have been approved excepting HAZ-8 per email verification 8/24/12				Raja Ponniah Randy Dixon

PC-1	NOISE-1	Notify all residents within one mile of the site and one-half mile of the linear facilities, by mail or other effective means, of the commencement of project construction. Establish a telephone number for use by the public to report any undestable noise conditions associated with the construction and operation of the project and include that telephone number in the above notice. The telephone number shall be posted at the project star during construction in a manner visible to passestary and materiatinal rurill project has been operational for no year.	Transmit to the CPM a statement, signed by the project owner's project manager, stating that the above notification has been performed and describing the method of that notification, verifying that the telephone number has been established and posted at the site, and giving that telephone number.	At least 15 days prior to the start of ground disturbance	3/10/11	GenOn	12/14/2010 Submittal 22	2010-1903	Approved (No Date Given)		12/14/10	2/4/2011 Verified as accepted in MCR MCR No.4 MCR 17 MCR No. 21				Stephen L. Erickson
CONS	NOISE-2	Throughout the construction and operation of the project, document, investigate, evaluate, and attempt to resolve all project-related noise complaints. Noise Complaint Resolution process will be used.	File a Noise Complaint Resolution Form with the City and the CPM documenting resolution of the compliant.	Within 5 days of receiving a noise compliant	As required	K&G	2/4/2011 Submittal 034		Received noise complaint 1/31/2011. Submited form to the CEC 2/4/2011							Raja Ponniah
PC-1	NOISE-3	Submit a noise control program and statement signed by project manager verifying that noise control program will be implemented throughout construction of the project. The noise control program must comply with applicable OSHA and Cal-OSHA standards.	Submit a noise control program and project manager's verification letter to the CEC CPM for review and approval.	At least 30 days prior to ground disturbance	2/23/11	KIEWIT	11/19/2010 Submittal 016 1/4/11 to the CBO	2010-1727	Approved 12/15/2010		11/19/2010	CEC acceptance per email (TN2010-1727) 12/15/2010 Also Verified as accepted MCR No.4				Raja Ponniah
СОММ	NOISE-4a	Project design will include noise mitigation measures to ensure that noise levels due to operation of the project alone will not exceed an hourly average of 54 dBA at or near LT-1 and 45 dBA at or near LT-2; No single piece of equipment shall be allowed to stand out as a source of noise that draws legitimate complaints.	Conduct a community noise survey at monitoring location LT-1, LT-2, or at a closer location acceptable to the CPM. This survey during the power plant's full-load operation shall also include measurement of one-third octave band sound pressure levels. Conduct a survey of noise at monitoring locations.	Within 30 days of project's first achieving a sustained output of 85% or greater of rated capacity	1/22/12	KIEWIT	7/8/13 CEC Submittal 167									Jake Albers Jason Lockwood
СОММ	NOISE-4b	Submit a summary report of the survey to the CPM. Included in the survey report shall be a description of any additional mitigation measures necessary to achieve compliance with the above listed noise limit, and a schedule, subject to CPM approval, for implementing these measures. When these measures are in place, the project owner shall repeat the noise survey.	Submit required info to the CPM.	Within 15 days after completing noise survey	2/6/12	KIEWIT	7/8/13 CEC Submittal 167									Jake Albers Jason Lockwood
СОММ	NOISE-5	Conduct an occupational noise survey to identify the noise hazardous areas in the facility when plant reaches 85% of rated capacity or greater	Prepare a report of the survey results and, if necessary, identify proposed mitigation measures that will be employed to comply with the applicable California and federal regulations.	Within 30 days after completing survey	2/21/12	KIEWIT	7/8/13 CEC Submittal 168									Doug King
PC-1	NOISE-6	Heavy equipment operation and noisy construction work relating to any project features, including pile driving, shall be restricted to the times delineated below, unless a waiver has been issued by the City of Anticoth for Teatmentwe construction hour limitations (specified to be Monday through Saturday 600 a.m. to 700 p.m. and Sundays and holidays 800 a.m. to 500p.m.; Mondays through Fridays 700 a.m. to 600 p.m. Malt rucks and discharge state of the control of the c	Transmit to the CPM a statement, signed by the project owner's project manager, acknowledging that the above restriction will be observed throughout the the constluction of the project. If waker is issued by the city it should be provided to the CPM for review and approval: also verified MCR No. 4 MCR 17 MCR No. 21	Prior to Ground Distrubance	2/23/11	KIEWIT	11/19/2010 Submittal 016 5/5/2011 Submittal 047 5/19/2011 Submittal 049 12/29/2011 Submittal 083 April 27, 2012 Submittal 099	2010-1728	Approved 12/15/2010 4/22/2011 Submitted request for Walver for well drilling and foundation powrs. 5/13/2011 Submitted request for walver for rewell drilling in July and Aug. Submitted hours for 0700-2400 12/23/2011 Approved July 21/23/2011 Approved 5/4/2012.		11/19/2010	Approved by CEC 12/15/10 by email from J Caswell (TN2010-1728) also 5/4/2012. with suspension Approval received per teleconferance and verified by email 9.14.12 Also verified MOR No. 4 MCR 17 MCR No. 21				Raja Ponniah
PC-1	PAL-1a	Provide the CPM with the resume and qualifications of the Paleontological Resource Specialist (PRS) for review and approval.	Submit the resume, references, and statement of availability to the CPM for review and approval.	At least 60 days prior to ground disturbance	1/24/11	GenOn	9/29/2010 Submittal 003 4/22/2011	2010-1260 10/5/2010	Approved 9/30/2010 New Monitor Annette Correlius 8/12/2011 submitted resume for Teresa Butler.		9/29/2010	11/29/2010 Email acceptance from CEC (On File) Also Verified as accepted per Section 4.0 in MCR No.2 with suspension Approval received per teleconferance and verified by email 9.14.12				Stephen L. Erickson
PC-1	PAL-1b	Provide a letter with resumes naming anticipated monitors stating they meet minimum quals for monitoring.	Submit the requested into to the CPM .	At least 20 days prior to ground disturbance	3/5/11	GenOn	11/2/2010 Submittal 003 Submittal 010 Submittal 045 Submittal 056	2010-1565	Approved (No Date Given)		11/2/2010	acceptance from CEC (On File) also per section 4.0 MCR No.5 on 2/4/2011 & 2/11/2011 with suspension Approval received per				Stephen L. Erickson
PC-1	PAL-2	Provide to the PRS and the CPM, for approval, maps and drawings showing the footprint of the power plant, construction laydown areas and all related facilities.	Provide maps and drawings to the PRS and CEC CPM	At least 30 days prior to ground disturbance	2/23/11	GenOn	12/2/2010 Sumbittal 21		Approved (No Date Given)		12/2/2010	2/4/2011 Verified as accepted MCR No.5 2/11/2011 with suspension Approval received per teleconferance and verified by email 9.14.12				Stephen L. Erickson
PC-1	PAL-3	The PRS shall prepare and submit a Paleontdogical Resources Monitoring and Mitigation Plan (PRAMP) to identify general and specific measures to minimize potential impacts to significant paleontdogical resources.	Provide the PRMMP to the CEC CPM, including an affidavit of authorship by the PRS and acceptance of the PRMMP by the project owner evidenced by a signature.	At least 30 days prior to ground disturbance	2/23/11	PRS	11/4/2010 Submittal 011 Final 12/14/2010 Submittal 022	2010-1577	Ammended 7/28/10 Afficiavit not required. Approved 12/21/2010		11/4/2010	CEC Acceptance by Email from J Caswell 11/29/2010 (On File) Additional Verificationper acceptances of section 4.0 of MCR No. 3 with suspension Approval received per teleconferance and verified by email				Stephen L. Sort Code	Cond. #	Description of Project Owner's Responsibilities	Verification/Action/Submittal Required by Project Owner	Timeframe	Date Due to CEC CPM	Lead Party	Date sent to CEC, CBO or agency	CEC Log # and Status	Comments	Date Submitted to GenOn	Date sent to CEC, CBO or agency2	Approved	СРМ	СВО	Other	Responsible Party
OPS	Soil & Water 5b	During operation an monitoring reports provided to DDSD shall also be provided to the CPM.	Submit any wasterwater quality monitoring reports required by DDSD, and a full explanation of corrective actions taken if a violation occurs to the CPM in the annual compliance report	Annually	Include in the ACR	NRG			Reports submitted annually.							David Frandsen
OPS	Soil & Water 5c	Notify the CPM of any violations of discharge limits	Submit any notice of violations from DDSD to the CPM and fully explain the corrective actions taken in the annual compliance report	Within 10 days of receipt of violation	As required	NRG										David Frandsen
CONS	Soil & Water- 6a	Install and Maintain metering devices as part of the water supply and distribution system to monitor and record in gallons per the volume of ground water and potable water supplied to the MLGS.	Submit Evidence to the CPM that metering devices have been installed and are operational on groundwater wells, potable eater and recycled water (if applicable) pipelines serving the project.	At least 60 days prior to use of any water source for operation	9/30/11	KIEWIT	9/21/12 Submittal 130					Submittal evidentury only no approval required				Raja Ponniah
OPS	Soil & Water 6b	Monitor and track the water use by operating the water metering devices for the life of the project. Differentiate between groundwater, potable water, and recycled water. Water use should not exceed 50 AFY from any source	Provide (1)a report on the service testing and calibration of the metering devices, (2)a water use summary report which is based on and distinguished between groundwater, potable water and recycled water, (3) Copies of meter records for the City of Antioch documented the volume of potable water supplied over the provious year as specified (4) Brackish groundwater sample laboratory test results (1 nyears where ground water is used) (5) data or into describing the water consensation program w/ estimates of the annual water saved in the ACR		Include in the ACR	NRG			Reports submitted annually.							Dan Leach
CONS	Soil & Water 6c	Provide evidence to the CPM that the City has agreed to supply emergency backup water to the project in sufficient quantifies to meet the projects needs at a flow rate comparable with the flow rate provide by one on site well	Submit to the CPM evidence that city water meters are installed and are operational. And proof that the City can deliver alternative water the site in the event of an emergency interruption at a flow rate of 420gpm	No later than 30 days prior to installing a connection to the City of Antioch potable water main	9/1/11	GenOn	9/29/2011 Submittal 067 Additional submittal 10/11/2011 Submittal 069		Provided copies of correspondence regarding supply of city water.			Verified as accepted per Email notice from CEC MS. C Stora on 9/4/2012				Dawn Owens
CONS	Soil & Water 6d	If Primary Alternative water source is approved by CPM to be City of Antioch Fresh Water Supply, (1)Pay fee equal to no more than \$1,000' AF of City of Antioch Water consumed annually, (2) A payment of \$15,000 shall be made to the city to offset water used during construction.	Provide evidence that brackish groundwater is environmentally undesirable or economical unsound. Provide proof that the initial water conservation fee of \$15,000 was paid to the city of Antioch.	Prior to site operations	4/1/13	GenOn	9/29/2011 Submittal 067		Provided evidence of \$15,000 payement to the city.	9/18/2012	Sent by Email to CEC PM C Strora 9/18	9/1912 Email confirmation to Dawn confirmation				Dawn Owens
OPS	Soil & Water 6e	If Primary Alternative water source (City of Antioch Water) is being used in operation, Pay an annual fee of \$1,000' AF of City of Antioch Water consumed annually	Calculate the annual use payment at the rate of \$1,000/ AF of fresh water reported annual in in the ACR. Pay the amount confirmed by the CPM	No later than 60 days following the approval of the ACR	As required	NRG			Paid annually in May.							Dan Leach
CONS	STRUC-1a	Prior to the start of any increment of construction, submit to the CBO for design review and approval the proposed lateral force procedures for priget structures and equipment identified in the CBO-approved master drawing and master specification list. Must include items within this condiction	Construction of any structure or component shall not begin until the CBO has approved the lateral force procedures to be employed in designing that structure or component. Submit to the CBO the final design plans, specs and calcs with a copy of the transmittal letter to the CPM.	structure or	As required	KIEWIT						Verified as accepted per Email notice from CEC MS. C Stora on 9/4/2012				Reid Strain
CONS	STRUC-1b	Submit to the CPM a copy of a statement from the CBO that the proposed structural plans, specifications, and calculations have been approved and comply with the requirements set forth in applicable engineering LORS.	Submit required info to the CPM.	Monthly	Include in MCR	KIEWIT					Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Reid Strain
CONS	STRUC-2	Submit to the CBO the required number of sets of the documents related to work that has undergone CBO design review and approval related to concrete cylinder strength test reports and pour sign-off sheets, bot forque and field weld respection reports, and other reports covering structural architects requiring special inspections in accordance with CBC.	If discrepancies are found, within 5 days the Project Owner shall prepare and submit an NOR to the CBO with a copy of the transmittal letter to the CPM. Within 5 days of resolution, the Project Owner shall submit a copy of the correction action to the CBO and CPM. The CBO's approved of the correction action to the CBO and CPM. The CBO's approved of disapproved shall be submitted to the CPM within 15 delays.	As required	As required	KIEWIT						Verified by CBO approvals and documented in Monthly reports section 2.26				Dennis Chambers
CONS	STRUC-3	Submit to the CBO design changes to the final plans required by the CBC, including the revised drawings, specifications, calculations, and a complete description of, and supporting rationale for, the proposed changes, and shall give to the CBO prior notice of the intended filing.	Notify the CBO of the intended filing of design changes, and notify the CPM in the MCR of the CBO's approval of the revised plans.	Monthly	Include in MCR	KIEWIT			No inpending changes		Monthly 10th Busness day of each month	Currently No noted issues with any Monthly report				Sarah Copeland
CONS	STRUC-4	Tanks and vessels containing quantities of toxic or hazardous materials exceeding amounts specified in the 2007 CBC shall, at a minimum, be designed to comply with the requirements of that chapter.	Submit to the CBO for design review and approval the final plans, specs, and calcs, including a copy of the signed and stamped statement from the responsible engineer certifying compliance with LORS	At least 30 days prior to the start of installation of the tanks or vessels	As required	GenOn - Ammonia Tank KIEWIT - All Other						Verified by CBO approvals and documented in Monthly reports section 2.28				Jake Albers Dave Hammond
CONS	TLSN-1	Construct the proposed transmission line according to the requirements of California Public Utility Commission's GO-95, GO-52, GO-131-0, Title 8, and Group 2, High Votage Electrical Selety Orders, Section 2700 through 2574 of the California Code of Regulations, and Pacific Gas and Electric's EMF-reduction guidelines.	Submit to the CPM a letter signed by a CA registered EE affirming that the line will be constructed according to the requirements set both in the Condition.	At least 30 days prior to starting construction of proposed new lines	4/1/12	KIEWIT	4/13/12 Submittal 097				4/13/2012	Verified as accepted per Email notice from CEC MS. C Stora on 9/4/2012				Luke Goss
CONS	TLSN-2	Every reasonable effort will be made to identify and correct, on a case-specific basis, any complaints of interference with radio or TV signals from operation of the proposed line and associated switchyard.	Submit to the CPM a letter signed by a CA registered EE affirming the project owners intention to compty with this requirment.	At least 30 days before starting operation of either line option	8/22/12	KIEWIT	8/21/2012 Submittal 120				8/21/2012	Verified as accepted per Email notice from CEC MS. C Stora on 9/4/2012				Luke Goss
CONS	TLSN-3	Use a qualified individual to measure the strengths of the electric and magnetic fields from the line at the points of maximum intensity along the proposed route. The measurements shall be made before and after energization according to ANSUREE standard procedures. These measurements shall be completed not later than six months after the start of operations.	File copies of the pre-and post-energization measurements with the CPM.	Within 60 days after completion of measurements	11/12/12	KIEWIT	7/12/13 CEC Submittal 169									Doug King
CONS	TLSN-4	Ensure that the rights-of-way of the proposed transmission line are kept free of combustible material, as required under the provisions of Section 4292 of the Public Resources Code and Section 1250 of Title 14 of the California Code of Regulations.	Transmit to the CPM a letter affirming the intention to comply with this condition.	At least 30 days before the start of operations	8/24/2012 Submittal	GenOn	8/22/2012 Submittal 122				8/22/2012	Verified as accepted per Email notice from CEC MS. C Stora on 9/4/2012				Randy Dixon
