Environmental Impact

Iâ€™ve lived in the Imperial for 50 yrs. Does extracting lithium from the Salton Sea disturb the environment and thus can make the already problem with the Salton Sea worst in the future?

220 jobs for the Imperial Valley will not make a dent in our unemployment problem. Meetings are not announced in time where there could be more community involvement.

The flyer for the meeting does not have any information on the project nor was the language on the flyer made easy to understand to the common community member.
