STATE OF CALIFORNIA

Energy Resources  
Conservation and Development Commission

In the Matter of:

Application For Small Power Plant  
Exemption for the **CA3 BACKUP  
GENERATING FACILITY**

**DOCKET NO: 21-SPPE-1**

**VDC STATUS REPORT 2**

---

Vantage Data Centers (VDC), in accordance with the Committee Scheduling Order dated, October 26, 2021 (TN239992), hereby files its Status Report Number 2 for the CA3 Backup Generating Facility (CA3BGF) and CA3 Data Center (CA3DC).

**City of Santa Clara Project Clearance Committee (PCC) Review**

VDC continues to work to close out the PCC review with the City of Santa Clara and anticipates that the most recent submittal addresses all of the last round of comments from the City.

VDC believes the Staff has all it needs to prepare its Land Use, Aesthetics, and Air Quality and Greenhouse Gas Emissions section of the Draft EIR.

**Outstanding Information**

VDC has provided all of the outstanding information requested by Staff and therefore believes Staff can proceed to prepare and publish the Draft EIR. While the Committee Order provides Staff 60 days to publish the Draft EIR, VDC respectfully requests that

Staff publish the Draft EIR sooner to accommodate the unique fact that the CA3DC has a tenant ready and able to occupy the space at the earliest time it can be constructed.

Dated: November 19, 2021

Respectfully Submitted,
