## Notice of Decision by the California Energy Commission

**To:** California Natural Resources Agency  
715 P Street  
Sacramento, CA 95814

**From:** California Energy Commission  
715 P Street  
Sacramento, CA 95814

**Subject:** Filing of Notice of Decision in compliance with Public Resources Code Section 21080.5 and Title 20, California Code of Regulations, Section 1749.

**Project Name:** Midway Sunset Cogeneration Project      **Docket Number:** 85-AFC-03C

**Contact Person:** Mary Dyas      **Phone #:** 916-628-5418

**Project Location:** Midway Sunset Cogeneration is located at 3466 Crocker Springs Rd in Fellows, Kern County.

**Project Description:** Midway Sunset Cogeneration is a 225-megawatt cogeneration facility that was certified by the California Energy Commission (CEC) on May 14, 1987 and began commercial operation on May 1, 1989.

The approved Petition to Amend the Commission Final Decision to modify the Midway Sunset Cogeneration project to replace the Unit C combustion system with a Dry Low oxides of nitrogen (NOx) 1+Turndown Enhance (DLN1+TE) combustion system.

On November 16, 2021, the CEC approved the above-described project change pursuant to a regulatory program certified by the California Natural Resources Agency Secretary under section 21080.5 of the California Public Resources Code, finding that:

- An EIR-equivalent document was prepared for the original project and forms the basis for this approval.
- The petition meets all the filing criteria of Title 20, section 1769 (a), of the California Code of Regulations, concerning post-certification project modifications.
- There is no possibility that the project change may have a significant effect on the environment.
- The project change will not cause the project to fail to comply with any applicable laws, ordinances, regulations, and standards.
- No daily, quarterly, annual, or other emission limit will be increased as a result of the project change.

The CEC docket files containing the Final Commission Decision, the staff analysis, and other information regarding the project are open to the public at: California Energy Commission, 715 P Street, Sacramento, California, 95814. This information is also available on the CEC's webpage
