Subject: R.20-05-003: IRP Offshore Wind Workshop | Friday 12/17/2021 | 10am-12pm PST

To Parties of R.20-05-003 (Integrated Resource Planning rulemaking):

Energy Division staff will host a public workshop on offshore wind on **December 17, 2021, from 10am – 12pm PST.**

- **Workshop objective:** To further develop understanding of the role of the CPUC's Integrated Resource Planning (IRP) process in relation to Californian offshore wind development
 - The focus will not be on the deliberative matters discussed in the Preferred System Plan ruling issued in August 2021, but rather on the IRP "roadmap" for offshore wind
 - Aim is to develop common understanding between planners and stakeholders regarding interaction between the IRP process and the overall timeline to bring offshore wind online in California
- **Preparation:**
 - Workshop slides, including the agenda, will be made available shortly beforehand at the IRP webpage
 - Stakeholders can make informal comments and ask questions during the workshop
 - Commissioners from the CPUC and CEC are likely to be attending the workshop. The workshop was noticed on [yesterday's CPUC Daily Calendar](#).
- **Workshop recording:** The workshop will be recorded, with the recording posted to the IRP webpage afterwards

Public Workshop Notice: R.20-05-003
