OIR-21-03 SMUD SPO study and load management

Additional submitted attachment is included below.

OIR-21-03 SMUD SPO study and load management

In SMUD's comments [TN241461](#) they speak of the "Smart Pricing Options Pilot Program" (SPO study).

Perhaps by viewing [SMUD video clip 1153](#) from 28:40 to 31:00 where SMUD staff talk of difficulty of working with interval data and billing issues, the burden and risk of now moving to dynamic rates and amount of customer support time that may be required to answer customer billing questions will get attention from the Energy Commission in determining added costs this rulemaking will cause.
