Docket Number: 21-SOLAR-01

Allow Permit Sonoma as Existing SolarApp User to Apply for Grant

Please allow the County of Sonoma to apply for a grant to recover the costs of preparation of SolarApp for use in its first California County. Our agency spent approximately \$50,000 in collaboration with DOE staff at the Boulder, CO lab. It would be extremely unfair to penalize the agency that helped get integrated into California's regulatory system.

I have personally promoted the system among California permitting officials, including articles in professional journals.

Please reconsider allowing our county to apply. Thank you, Tennis Wick, AICP, Director
