World demand for lithium is expected to grow as much as tenfold in the next decade driven largely by increasing demand for lithium-ion batteries in electric vehicles and energy storage. The Salton Sea geothermal resource area is well-positioned to become a competitive source of this critical mineral which could potentially unleash billions of dollars of new economic infrastructure development.

To explore the opportunities and challenges surrounding lithium recovery from geothermal brines in the Salton Sea geothermal region,

Governor Gavin Newsom signed Assembly Bill 1657 in September 2020 creating the Blue Ribbon Commission on Lithium Extraction in California, known as the Lithium Valley Commission.

The Lithium Valley Commission is charged with investigating and analyzing a range of related issues collaboratively with other government agencies and members of the public. The Commission must submit a report of findings and recommendations to the state legislature by October 1, 2022.

**Lithium Valley Commission Meetings**

The Lithium Valley Commission holds public meetings to complete regular business and discuss specific topic areas through guest expert presentations, moderated discussions, question-and-answer periods and public comment. Staff from the California Energy Commission (CEC) provides operational support to the Lithium Valley Commission.

Meetings are typically conducted on the last Thursday of each month and usually include discussions of one or more of the following topics identified for analysis in AB 1657 as well as findings and recommendations being considered for inclusion in the report to the legislature:

- Lithium extraction methods
- Furthering geothermal development
- Market opportunities for lithium extraction
- Environmental impacts
- Importance of incentives
- Economic impacts
- Workforce development
- Benefits of/to geothermal plants
- Overcoming challenges to lithium extraction
- Legislative regulatory recommendations
Lithium Valley Commissioners

The 13-member Lithium Valley Commission includes a range of industry, government and community representatives appointed by the Energy Commission and others as the law requires.

- **Chair Silvia Paz**, Alianza Coachella Valley
  Appointed by Governor Newsom

- **Vice Chair Ryan E. Kelley**, County of Imperial
  Local city or county government representative
  Appointed by the CEC

- **Steve Castaneda**, South Bay Irrigation District,
  Sweetwater Authority
  Appointed by the Senate Committee on Rules

- **Rod Colwell**, Controlled Thermal Resources
  Economics and incentives representative
  Appointed by the CEC

- **Roderic Dolega**, Ford EV Purchasing
  National vehicle manufacturer representative
  Appointed by the CEC

- **Miranda Flores**, California Natural
  Resources Agency
  Appointed by the Secretary of the
  California Natural Resources Agency

- **James C. Hanks** - Imperial Irrigation District
  Local public electric utility representative
  Appointed by the CEC

- **Arthur Lopez**, Torres Martinez Desert
  Cahuilla Indians
  Local tribal community representative
  Appointed by the CEC

- **Luis Olmedo**, Comite Civico Del Valle, Inc.
  Disadvantaged and low-income communities representative
  Appointed by the CEC

- **Frank Ruiz**, Audubon California’s Salton Sea Program
  Local environmental organization representative
  Appointed by the CEC

- **Manfred Scott**, Quechan Indian Tribe,
  General public representative
  Appointed by the CEC

- **Thomas Soto**, Diverse Communities Impact Fund
  Appointed by the Speaker of the Assembly

- **Jonathan Weisgall**, Berkshire Hathaway Energy
  Lithium extraction industry representative,
  Appointed by the CEC
