Subject: Re: ESEC - outstanding information

Here is an adjustment to my voicemail, \$2-4M per year is range based on 30 to 60% capacity factor. \$1.3M-2.7M is for user utility tax and \$0.7M-1.3M is for gas franchise fee (about 1/3 of total fee we estimated). That range should cover the 10 year period I estimated for 2018-2028. so \$20-40M for 10-yr period.

Subject: RE: ESEC - outstanding information

George and Robert

Sorry I missed that.

The table identifies 2 to 4 mill annual.

That is for gas and utilities?

What is approximately the amount of gas? Is it a percentage?

Is it about 2 mill now and will be 4 mill in the future?

Thank you for your help.

Craig

The gas franchise fee was included in the non-confidential economic benefit table that was docketed a couple of weeks ago (along with a ltr requesting that the previous confidential filing be returned).

Thanks

Robert

We are reviewing the plume analysis draft. You should have that end of week. I thought you got the gas franchise fee in the our last SOC deliverable.

George

The outstanding information that we are still waiting on:

Air Quality

- Updated construction emissions.
- Thermal Plume analysis.

Cultural

- Please see below.

Socioeconomics

- Gas franchise numbers.

Looks like not much left. We are in great shape.

You have done an amazing job making sure staff has all the information they need.

It looks like the last information that Cultural Resources is waiting on is for the updated records search.

Any updates.

Thank you for your help.

Subject: RE: ESEC - The PDOC is in and updated references

Craig,

Here is the outstanding archaeological data need for the cultural resources analysis, in addition to having the previous finds mapped on a 7.5-minute topographic quadrangle:

- o DR 78. Update Records Search
 1. Provide copy of records search map(s) at a scale of 1:24,000 or 7.5-minute
 2. Provide copies of previous cultural resource studies and recorded cultural resources according to criteria in Appendix B of the Energy Commission's Siting Regulations
 3. Summarize records search results

I hope this helps.

Gabriel
