RE: Forms and Instructions for
Submitting Electricity Resource Plan
Information

Notice of Remote Access IEPR Staff Webinar on Forms and Instructions to Collect Electricity Resource Plan Data from Load- Serving Entities

April 13, 2022

2:00 p.m. - 4:00 p.m.

Remote Access Only

The California Energy Commission (CEC) will host a remote-access workshop to solicit comments on proposed data collection and analyses for the 2022 Integrated Energy Policy Report (2022 IEPR) relating to electricity resource plans.

The public can participate in the workshop consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

Agenda

On April 13, 2022, CEC staff from the Energy Assessments Division will present proposed changes to its electricity resource plan forms and instructions. Significant changes include the collection of monthly data and submission of reports during IEPR update years. All changes to the electricity resource plans will be explained during the webinar. The webinar will start with an introduction, followed by a presentation on the electricity resource plan forms and instructions. After the presentation, there will be time for participant discussion and comments.

A detailed meeting agenda with draft forms and instructions will be posted prior to the webinar at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?doctetnumber=22-IEPR-03>.

Background

The CEC is directed by California Public Resources Code Section 25301 to regularly assess all aspects of energy demand and supply in order to develop energy policies that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety. These assessments are the foundation for analyses and policy recommendations to the Governor, Legislature, and other agencies. To carry out these assessments, "the Commission may require submission of demand forecasts, resource plans, market assessments, and related outlooks from electric, natural gas utilities, transportation fuel and technology suppliers, and other market participants" (California Public Resources Code Section 25301[a][2]).

Under the CEC's regulations, each load-serving entity (LSE) is required to submit a 10-year demand forecast according to forms and instructions adopted by the CEC. (Cal. Code Regs, tit. 20 § 1345). All LSEs are also required to submit 10-year resource plans according to forms and instructions adopted by the CEC. (Cal. Code Regs, tit. 20 § 1347). Cal. Code Regs, tit. 20 § 1350 provides an exemption from these filing requirements to small LSEs (those with a peak electricity demand of less than 200 MW in each of the last two calendar years preceding the filing) if those entities have provided the resource adequacy information identified in Cal. Code Regs, tit. 20 § 1346.

This information will provide a foundation for the analyses and recommendations in the 2022 IEPR, including resource assessment and analysis of progress towards energy efficiency and renewable energy goals. The data will also be used to develop CEC forecasts, which are used in the California Public Utilities Commission procurement and resource adequacy proceedings, as well as in transmission planning studies conducted by the California Independent System Operator. This information will also provide the CEC with a better understanding of LSE planning assumptions and supply resource commitments, allowing the CEC to assess current conditions in electric generation system infrastructure needs and to identify major statewide trends affecting electricity supply and reliability. Supply forms and instructions will be posted to the docket (22-IEPR-03) a few days prior to the webinar.

Remote Attendance Instructions

The webinar may be accessed by clicking the Zoom link below or visiting [Zoom](https://join.zoom.us) at <https://join.zoom.us> and entering the ID and password for the webinar listed below. If you experience difficulties joining, contact Zoom at (888) 799-9666 ext. 2, or the Public Advisor at publicadvisor@energy.ca.gov or at (916) 957-7910.

Meeting ID: 947 2355 8566

Meeting Password: 604025

Use the "raise hand" feature to indicate you want to speak and the event facilitator will indicate when your line is open and ready for you to make comment.

To Participate by Telephone, dial (213) 338-8477 or (669) 219-2599. When prompted, enter the ID: 947 2355 8566. To comment, dial *9 to "raise your hand" and *6 to mute/unmute your phone line.

Zoom's closed captioning service will be enabled for the meeting. Attendees can use the service by clicking on the "live transcript" icon and then choosing either "show subtitle" or "view full transcript". The closed captioning service can be stopped by exiting out of the "live transcript" or selecting the "hide subtitle" icon. Closed captioning cannot be exited by phone.

Public Comment

Oral comments will be accepted at the end of the workshop. Comments may be limited to three minutes or less per speaker and one person per organization. If participating via Zoom's online platform, use the "raise hand" feature so the administrator can announce your name and unmute you. If you are participating by telephone, press *9 to "raise your hand" and *6 to mute/unmute.

Written comments must be submitted to the Docket Unit by 5:00 p.m. on April 27, 2022.

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the e-commenting page at <https://www.energy.ca.gov/proceedings/e-filing-and-e-commenting>, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document in Microsoft® Word or Adobe® Acrobat®. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number 22-IEPR-03 and "Electricity Forecast" in the subject line and email to docket@energy.ca.gov.

A paper copy may be sent to:

Public Advisor and Other CEC Contacts

The CEC's Public Advisor provides the public with assistance in participating in CEC proceedings. For information about how to participate in this workshop or to request interpreting services or other reasonable modification and accommodations, reach out by phone at (916) 957-7910 or via email at publicadvisor@energy.ca.gov. Requests should be made for interpreting services,

reasonable modifications and accommodations as soon as possible but at least five days in advance of the workshop. However, the CEC will work diligently to meet all requests based on the availability of the service or resource requested.

Direct media inquiries to mediaoffice@energy.ca.gov or (916) 654-4989.

Direct general inquiries regarding the Electricity Resource Plans to Robert Kennedy at robert.kennedy@energy.ca.gov or (916) 891-8548.

Availability of Documents

Documents and presentations for this meeting will be available at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03>.

When new information is posted, an email will be sent to those on the Integrated Energy Policy Report and Electricity Issues list subscriptions. To receive these notices, subscribe at <https://www.energy.ca.gov/data-reports/reports/integrated-energy-policy-report/2022-integrated-energy-policy-report-update>. Manage existing list subscriptions or sign up for others at <https://public.govdelivery.com/accounts/CNRA/signup/31719>.
