Docket Number: 22-AAER-01

greater or equal FEI

Highly efficient fans of certain aerodynamic characteristics or of limited structural strength may not be operable where FEI equals 1.00. The "equal sign" therefore ought to be substituted with the "equal or greater sign" in (a) the illustration, (b) regulatory language Â§ 1606 Filing by Manufacturers, and (c) Â§ 1607. Marking of Appliances.
- see my markup of today's presented illustration attached

AMCA 214 Annex H describes all related scenarios well.

Additional submitted attachment is included below.
