Acceptance Test Technician Certification Provider
Application Amendment Review for National Lighting
Contractors Association of America
CEC-400-2022-003
Docket 13-ATTCP-01**

The National Lighting Contractors Association of America (NLCAA) submitted to the California Energy Commission (CEC) an application amendment on December 15, 2021. NLCAA submitted a revised application amendment to address staff's evaluation for compliance on January 28, 2022. As specified in section 10-103.1(f) of the Building Energy Efficiency Standards (Energy Code), acceptance test technician certification providers (ATTCPs) may submit an amendment to their approved application. Amendments submitted after approval of an ATTCP's application that contain any substantive changes shall be subject to the application review and determination process specified in section 10-103.1(e).

CEC staff evaluated the complete application amendment submitted by NLCAA and has determined that the proposed changes to quality assurance and accountability on-site auditing procedures satisfy the requirements for quality assurance and accountability in section 10-103.1(c)3F of the 2019 Energy Code. Staff recommends approval of the NLCAA's application amendment.

Section 10-103.1(e)3 of the 2019 Energy Code requires the CEC to give all interested persons a copy of staff's evaluation and provide reasonable opportunity for public comment. As such, the CEC is posting a staff report on the review and evaluation of NLCAA's application amendment.

This staff report is available free on the [CEC website](http://energy.ca.gov) at <https://efiling.energy.ca.gov/GetDocument.aspx?tn=242759&DocumentContentId=76325>.

Public Comment

Oral comments will be accepted during the regularly scheduled business meeting on May 11, 2022, when the CEC will consider approving NLCAA's application amendment.
