## **Californians Need Access to Stable, Affordable, Healthy Housing!**

According to Apartment List, rent prices have increased by more than 17% in the past year, which tracks rental properties across the country. Those rising rents have put homes out of reach for many low- and medium-income renters. Homeownership and stable housing have been out of the reach of many Californians for far too long. Access to stable, affordable, and healthy housing can have powerful impacts on a household's stability, job opportunities, health, and educational achievement. The CSG4 project can bring housing stability to the San Diego area and the state of California.
