Notice of IEPR Staff Workshop on Forms and Instructions to Collect Transmission Data from Load Serving Entities and Transmission Owners

May 26, 2022
2:00 p.m. - 4:00 p.m.
Remote Access Only

The California Energy Commission (CEC) will host a remote-access workshop to solicit comments on proposed transmission-related data collection and analyses for the 2023 Integrated Energy Policy Report (2023 IEPR) relating to electricity resource plans. Data collection is occurring through the 2022 IEPR Update Docket for use and analysis in the 2023 IEPR.

The public can participate in the workshop consistent with the direction provided below. Please note that the CEC aims to begin promptly at the start time posted and the end time is an estimate based on the agenda proposed. The workshop may end sooner or later than the posted end time depending on various factors.

Agenda
CEC staff will present proposed forms and instructions for transmission-related data. After the presentation, there will be time for participant discussion and public comments.

A detailed meeting schedule with draft forms and instructions will be posted prior to the webinar at https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03.

Background
The CEC is directed by California Public Resources Code Section 25301 to regularly assess all aspects of energy demand and supply in order to develop energy policies that conserve resources,
protect the environment, ensure energy reliability, enhance the state's economy, and protect
public health and safety. These assessments are the foundation for analyses and policy
recommendations to the Governor, Legislature, and other agencies. To carry out these
assessments, “the Commission may require submission of demand forecasts, resource plans,
market assessments, and related outlooks from electric, natural gas utilities, transportation fuel
and technology suppliers, and other market participants” (California Public Resources Code Section
25301(a)(2)). The CEC is also required to publish a strategic plan for California’s transmission grid
and include it in the IEPR. (California Public Resources Code Section 25324)

The proposed transmission forms and instructions require transmission owners to provide
information about their transmission systems and Load Serving Entities (LSE) to provide
information on power purchases or generation that require transmission upgrades in order to serve
California loads.

This information will provide a foundation for the analyses and recommendations in the 2022 IEPR,
including resource assessment and analysis of progress towards the state’s energy goals. The data
will also be used to develop CEC forecasts, which are used in the California Public Utilities
Commission procurement and resource adequacy proceedings, as well as in transmission planning
studies conducted by the California Independent System Operator. This information will also
provide the CEC with a better understanding of LSE planning assumptions and supply resource
commitments, allowing the CEC to assess current conditions in electric transmission system
infrastructure needs and to identify major statewide trends affecting electricity transmission. Forms
and instructions for submitting transmission information will be posted to the docket 22-IEPR-03 a
few days prior to the webinar.

Remote Attendance Instructions
The workshop may be accessed by clicking the Zoom link below or visiting Zoom at
https://join.zoom.us and entering the ID and password for the workshop listed below. If you
experience difficulties joining, contact Zoom at (888) 799-9666 ext. 2, or the Public Advisor at
publicadvisor@energy.ca.gov or at (916) 957-7910.

Link to Workshop:
https://energy.zoom.us/j/92455506317?pwd=N0NaRXc2bEYyUEpKNllaN5GsWWl2zUT09
Workshop ID: 924 5550 6317
Workshop Password: 192266

Use the “raise hand” feature to indicate you want to speak and the event facilitator will indicate
when your line is open and ready for you to make comment.

To Participate by Telephone, dial (213) 338-8477 or Toll free (877) 853-5257. When prompted,
enter the ID: 924 5550 6317. To comment, dial *9 to “raise your hand” and *6 to mute/unmute
your phone line.
**Zoom’s closed captioning service** will be enabled for the meeting. Attendees can use the service by clicking on the “live transcript” icon and then choosing either “show subtitle” or “view full transcript”. The closed captioning service can be stopped by exiting out of the “live transcript” or selecting the “hide subtitle” icon. Closed captioning cannot be exited by phone.

**Public Comment**

**Oral comments** will be accepted at the end of the workshop. Comments may be limited to three minutes or less per speaker and one person per organization. If participating via Zoom’s online platform, use the “raise hand” feature so the administrator can announce your name and unmute you. If you are participating by telephone, press *9 to “raise your hand” and *6 to mute/unmute.

**Written comments** must be submitted to the Docket Unit by 5:00 p.m. on June 3, 2022.

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the e-commenting page at https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=22-IEPR-03, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the “Comment Text” box or attached as a downloadable, searchable document in Microsoft® Word or Adobe® Acrobat®. The maximum file size allowed is 10 MB.

Written comments may be submitted by email. Include docket number 22-IEPR-03 and “Electricity Forecast” in the subject line and email to docket@energy.ca.gov.

A paper copy may be sent to:

California Energy Commission  
Docket Unit, MS-4  
Docket No. 22-IEPR-03  
715 P Street  
Sacramento, California 95814

**Public Advisor and Other CEC Contacts**

The CEC’s Public Advisor provides the public with assistance in participating in CEC proceedings. For information about how to participate in this workshop or to request interpreting services or other reasonable modification and accommodations, reach out by phone at (916) 957-7910 or via email at publicadvisor@energy.ca.gov. Requests should be made for interpreting services, reasonable modifications and accommodations as soon as possible but at least five days in advance of the workshop. However, the CEC will work diligently to meet all requests based on the availability of the service or resource requested.

**Direct media inquiries** to mediaoffice@energy.ca.gov or (916) 654-4989.
Direct general inquiries regarding the transmission-related data requests to Mark Hesters at mark.hesters@energy.ca.gov or (916) 931-8942.

Availability of Documents
Documents and presentations for this meeting will be available at https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-IEPR-03
