Subject: El Segundo Energy Center (00-AFC-14C) Bifurcation of FSA

Dear Ms. Stora: Thank you for your status report informing the Committee about the Air Quality issues that the Applicant is working to resolve. Your proposal to publish the FSA, without the Air Quality section, on October 3, 2014, makes sense because it will enable the public and the parties to begin review and preparation for evidentiary hearings. The Air Quality section will be published once applicant's air quality issues have been resolved and Staff has had the opportunity to finalize the Air Quality section. Thereafter, the Committee will establish a schedule for the Prehearing Conference and Evidentiary Hearings.
