Please pass this email to Ms Paz.

I represent a Korean organization the sponsors with the Korean Government, the world re-known Korea Institute of Geoscience & Mineral Resources (www.kigam.re.kr) that has developed an advanced technology for Direct Lithium Extraction.

My partner from Korea who has the world-wide rights to the technology will be with me in the Imperial Valley area next Wednesday, July 27, and I would like very much to have a brief visit toward the middle of the day if possible with Ms Paz to introduce our selves and our revolutionary new technology.

Kindly ask her to reach out to me at the below:
