Organization:	Ch2mhill/Carrier
Submitter Role:	Applicant Consultant
Submission Date:	8/1/2022 3:19:28 PM
Docketed Date:	8/1/2022

SECTION 3.0

Demand Conformance

As of January 1, 2000, the Commission is no longer required to determine if a proposed project conforms with an integrated assessment of need. Senate Bill 110, which took effect on January 1, 2000 (Cal. Const. Art. 4, Section 8.), states:

“Before the California electricity industry was restructured the regulated cost recovery framework for power plants justified requiring the commission to determine the need for new generation, and site only power plants for which need was established. Now that power plant owners are at risk to recover their investments, it is no longer appropriate to make this determination.”
