Re: CALCTP Repeated Application for Confidential Designation

Dear Docket Unit:

I am writing on behalf of ICF, a program administrator for the California Advanced Lighting Controls Training Program (“CALCTP”) (“Applicant”) to submit this repeated application¹ for confidential designation of certain specified Acceptance Test Curriculum Materials, CALCTP compliance forms, and Test Questions as 2022 amendments to CALCTP’s Acceptance Test Technician Certification Provider Application to become a Lighting Control Acceptance Test Technician Certification Provider under California Code of Regulations, Title 24, Part 6, § 10-103-A (“Amended Lighting Control ATTCP Application”). These documents are submitted under Docket 13-ATTCP-01.

On November 26, 2013 the CEC granted confidentiality for curriculum and testing materials as part of the Applicant's efforts to become a Lighting Controls Acceptance Test Technician Certification Provider. The confidential material consists of training modules addressing various technical areas an Acceptance Technician would need to demonstrate competence in before being certified. This material was updated in 2016 and was again granted confidentiality.

On August 4, 2022 CALCTP submits the following CALCTP ATTCP Curriculum Update materials to reflect changes in the 2022 edition of Title 24 and to make various editorial improvements in the curriculum, along with a request for confidentiality for these documents:

1. CALCTP - AT V4 Employer Certification Curriculum – Clean, 174 pages
2. CALCTP - AT V4 Employer Certification Curriculum – Redline, 184 pages
3. CALCTP - ATE V4, Certification Quizzes, 5 pages

¹ Cal. Code Regs., tit. 20, § 2505(a)(4) (repeated applications for confidential designation).

4. CALCTP - ATE V4, Employer Final Exam and Answers, 10 Pages

As stated above, on November 13, 2013, the Executive Director of the California Energy Commission granted confidential status to the CALCTP ATTCP Curriculum materials, including online proprietary NRCA forms, and test bank questions. Per my communication with the CEC, we don't need to resubmit a confidential application each code cycle just reference our initial confidentiality application and provide title and page numbers of the materials to remain confidential

Please contact me right away if there is any question as to which documents are to be kept confidential.

I certify under penalty of perjury under the laws of California that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge and that I am authorized to make the application and certification on behalf of the Applicant.²

Sincerely,

Mark V. Ouellette
