NO RENEWEL OF DIABLO

Following below are the major reasons I am opposed to the renewel of Diablo Canyons operating license. Please proceed with the planned shutdown.

The operation of Diablo discourages the use of renewables.

Diablo is old and not reliable. Maintenance has been deferred. The last replacement for aging parts resulted in a seven-month outage.

PG&E is a corporate felon, responsible for over 100 dead, thousands of homes and businesses burned, hundreds of thousands acres scorched. It can not be trusted.

Diablo is seismically vulnerable.

The proposal to extend operation severs the closure agreement of 2016.

Where/how will this extra high level radioactive waste be stored?

Diablo's Once Through Cooling system is now unlawful. How will that be rectified?

Ratepayers and State and Federal taxpayers unjustly foot the bill for this proposed Diablo Canyon "rescue".
