Close Diablo Nuclear Power Plant

We do not support the continued operation of the Diablo Nuclear Power plant. We have been lucky over the years it has been in operation that there has not been a major accident. It is quite old now and would need a major refurbishment to be even close to safe. I know the employees work hard to keep everything safe but with Nuclear energy, it only takes one accident to destroy a community - thousands of lives destroyed. . Please do not allow it to stay open. Use the facility to provide a Desal Plant for the County. That would be a good use of the facility.
