## **Diablo Canyon Nuclear Power Plant**

I am strongly opposed to extending the life of this nuclear power plant. Diablo Canyon plant is old and, due to poor and deferred maintenance, unsafe and unreliable. There is still no plan or way to safely dispose of radioactive waste. Further use of unsafe and toxic nuclear energy, which is not only undesirable on its own, also discourages the development and use of clean renewable energy. Extending the life of Diablo Canyon Nuclear power plant is a terrible idea and a huge mistake.
