## **Close Diablo Nuclear Plant in 2024 as planned**

I strongly urge you to continue with the planned closure of Diablo Nuclear Power Plant. It is located near numerous earthquake fault lines and is a disaster waiting to happen. The decision to close the plant was made due to risks to the environment and human health. We already have too much nuclear waste stored on site with no permanent repository available. I live down wind of Diablo and I ask you to honor the agreement made to close the plant in 2024 and 2025 and planned. Thank you.
